BRITISH LEADERS UNDER FIRE

CENTRAL PORTION OF SHENANDOAH, PA., SINKS INTO MINE

HEAVY PROPERTY DAMAGE BUT NO LOSS OF LIFE IS REPORTED

SHENANDOAH, Pa., Mar. 4.—(AP)—Mid-city Shenandoah sank slowly today, toppling homes and cracking business buildings, as abandoned anthracite mine workings below the town collapsed after a 24-hour rain.

City officials said property damage would reach $1,000,000.

Residents, awakened by the rumbling that warned of the cavein, fled from a 16-block area that settled slowly and steadily. Police Chief Frank Alinsky said no one was reported killed or injured, but property damage was heavy.

At 8 a. m. seven hours after the subsidence first was detected many buildings had settled 18 inches and widening cracks streaked across factories and sturdier brick structures.

Many homes were split in two. Gas and water mains were broken and police ordered valves closed. Street pavements caved in.

Women sobbed hysterically among the hundreds of spectators who looked on from safe areas outside the section police roped off. Many saw their houses collapse.

After the confusion of the first scare, police said residents of the area might go back to their homes or carry out possessions—"if they wanted to."

The affected section includes almost a quarter of the town of 21,000 population. Damage was reported within a block of the intersection of Main and Center streets—the heart of the town. The sinking extended in varying degree from Main street, principal north-south street, and north from the street above Center street, which runs east and west.

State police from all nearby stations were summoned to help the Shenandoah police force maintain order and patrol the endangered section.

Telephone service to Shenandoah from nearby communities in the anthracite section was disrupted.

"In some houses, doors jammed so tightly that the people had to crawl out of windows to get away," said Chief Alinsky.

In addition to private residences, the area included the junior and senior high schools, the rescue hook and ladder fire house, the Hotel Mondour, the Miller Shirt factory, and Armour packing plant and numerous smaller business places.

Over Twenty New Members Secured Corsicana C. of C.

More than twenty new memberships in the Corsicana Chamber of Commerce have been secured during the past week according to a partial report from the two campaign teams received by Chairman J. F. "Speedy" Adams Monday morning.

The chairman announced a meeting of the full committee would be held at 9:30 Tuesday morning for a complete report and making of new plans.

Brick Buildings Business District Damaged by Fire

Fire that originated on the second floor of the H. L. Wendorf building shortly before 9 o'clock Saturday night spread to an adjoining structure and was not brought under control until near midnight with loss estimated by Fire Chief Elmer Keith at $25,000.

The upper floors of the building occupied by the Wendorf Shoe Shop and the structure immediately east occupied by Miss Fannie Greenlee were the heaviest losers. The second stories of both buildings were used only for storage space.

Loss on the Wendorf building was estimated at $6,000 and in addition considerable damage resulted to the shoe repair machinery and stock of materials and merchandise.

Loss by Miss Fannie Greenlee was estimated at approximately $6,000 and another $6,000 was credited against the building owned by Mrs. Beauford H. Jester. Smaller amounts of damage were suffered by the V. E. Wendorf building on the west of the fire's origin, by the H. Grantham Tailor Shop, and by the Martin building on the east.

A large crowd was attracted to the scene of the blaze.

SADLER ANNOUNCES HIS CANDIDACY FOR GOVERNOR TEXAS

WILL PROPOSE LEGISLATION TO RAISE FUNDS FOR SOCIAL SECURITY

AUSTIN, March 4.—(AP)—Jerry Sadler, member of the state railroad commission, today announced he was a candidate for governor.

"I am definitely a candidate for governor," the peppery, wisecracking commissioner stated.

Harry Hines, member of the state highway commission, and Rep. Albert Derden are other gubernatorial candidates who have announced.

Gov. W. Lee O'Daniel has not said as yet whether he will ask a second term out is expected to do so.

Ernest O. Thompson, another member of the railroad commission and runnerup in 1938 to O-Daniel ,is expected to announce about May 1.

Sadler's announcement was informal but he said he would soon announce formally and give a detailed platform.

If elected, Sadler said he would propose to the legislature financing old age pensions and providing for crippled children, the blind, dependent children and teachers retirement by the following increases in taxes:

Two one-fourth cents on oil production.

One cent per 1,000 cubic feet on natural gas.

An increase in corporation franchise tax.

An increase in the tax on sulphur.

A pipeline tax.

Would Raise $23,000,000.

He asserted his proposal would raise $13.000,000 additional from oil annually and $10,000,000 a year on natural gas.

The proposed taxes would be a type that would not be passed on to the Texas consumer, he declared.

Sadler rapped the transaction tax recommended to the legislature by Governor O'Daniel and the gross receipts tax which he

HITLER'S PEACE TERMS GIVEN SUMNER WELLES ARE THOSE OF VICTOR IN NEWEST WORLD WAR

By DEWITT MACKENZIE

Herr Hitler's ambitious peace terms as reportedly outlined to special American Ambassador Sumner Welles are, of course, those of a conqueror and impossible of acceptance by the Anglo-French allies, but they are neither more nor less than observers expected and haven't altered the situation at all.

Thus seekers after war's-end need find no disappointment in the Fuehrer's claims, albeit there is little apparent encouragement, we at least have Hitler's top price, which represents either the height of optimism or a bold effort to drive a hard horse-deal.

To complete the picture we need to know what the keen Mr. Welles read between the lines. Maybe he saw some bargaining points to report to President Roosevelt. We also should like a record of the conversations between Field Marshal Hermann Goering, the Nazi chieftain's political heir, and others. Certainly not all German leaders look at things just as does Herr Hitler.

One thing would seem to be quite clear—that while this probably is a good time for Undersecretary Welles to collect information relating to prospects, the time hasn't arrived for peace overtures. He undoubtedly will encounter just as firm a stand in Paris and London, especially as regards the determination to "crush Hitlerism," and the value of his mission will lie in his ability to size up the general situation through his own observations.

The cold fact is that not all the cards in this war are on the table yet. Important plays are in the process of being developed and not until the outcome is apparent will either side be prepared to consider peace terms, and perhaps not then.

The Russo-Finnish conflict is an outstanding example. That has as many potentialities as a porcupine has quills. Either the Finns will be rescued by their friends or ultimately will be smashed by the Reds.

If the Muscovites overrun the little republic without outside intervention this presumably will leave the Reds still "neutral so far as concerns the war between Germany and the allies. But England and France may intervene, thereby forcing Russia into the main conflict on the side of Germany, and opening up a new battle front against the Nazis. Or possibly Norway and Sweden might join the allies in defense of the Finns.

Every time you figure out a new combination you give the general war a fresh complexion.

PRESIDENT ENDS SEVENTH YEAR IN PRESIDENCY TODAY

SPECULATION NOW RIFE OVER WHETHER HE WILL SEEK THIRD TEAM

By D. HAROLD OLIVER

WASHINGTON, Mar. 4.—(AP)—President Roosevelt reached the seventh anniversary of his precedent-breaking New Deal regime today in an atmosphere teeming with speculation over whether he would continue to challenge tradition and seek a third term.

The chief executive told reporters on Saturday, however, he would not utilize the occasion to disclose his intentions.

Third term or not, the graying president at 58 still gets a kick out of his job, has associates say, despite reports he is tiring of it.

Rumors continue that he will favor Secretary Hull or Attorney General Jackson as his successor if he takes himself out of the picture.

Many politicians believe the confidential report on peace prospects which Undersecretary Welles will bring back from Europe may help the president chart his political course.

In observance of today's anniversary, Mr. Roosevelt decided to attend a special morning service at the "Church of the Presidents"—St. John's Episcopal. Tonight the cabinet will entertain him and Mrs. Roosevelt.

Flare for Dramatic

Always the performer of the dramatic, the president attained the seventh milestone of his administration by enlarging on one of his many "firsts." His Panama cruise added more than 4,000 miles to the presidential travel record which he set a year ago. His total now is about 178,000 miles.

Before Mr. Roosevelt announced in his inaugural address that he would do "first things first," he had indicated his disregard for time-honored practice by flying to Chicago in 1932 to accept his nomination. He has not flown since.

Mr. Roosevelt's first 100 days in the White House were his busi-

HOUSE COMMITTEE CUTS ADDITIONAL FUNDS FROM BILLS

SENATE RESOUNDED WITH PRAISE OF SEVEN-YEAR OLD ADMINISTRATION

WASHINGTON, March 4.—(AP)—The house appropriations committee raised the total of budget cuts made in congress this year to $293,000,000 today.

At the same time a movement developed in the senate to spend part of the treasury's $1,000,000,000 working cash, which treasury officials contend should be kept on hand for use in event of an emergency.

Both developments reflected the election-year desire of members of congress to avoid new taxes or an increase in the limit on the national debt.

In its latest whack at President Roosevelt's budget estimates, the house committee trimmed $2,986,277 from the interior department bill.

The senate resounded to praise of accomplishments of the Roosevelt administration, which began seven years ago today.

Senator Barkley, the Democratic leader, said in an anniversary speech that the New Deal had helped labor and business alike.

Farm problems came up again in a bill proposed by Chairman Jones (D-Texas) of the house agriculture committee and Senators Wheeler (D-Mont), Bankhead (D-Ala) and La Follette (Prog.-Wis). They proposed that the farm loan system be altered to make land banks self-supporting and at the same time cut the interest rate paid by farmers.

Matthw Woll, speaking far an organization fathered by a group of AFL Unions, and L. J. Taber, master of the National Grange, testified before the senate finance committee in opposition to extension of the reciprocal trade program.

Chain Store Tax Hearings.

Chairman Doughton (D-NC) announced that a house ways and means subcommittee would begin hearings soon on the Patman chain store tax bill.

General interest was shown in the senate in the proposal to spend so emof the treasury's working cash now.

President Roosevelt's budget called for $460,000.000 of new taxes for extra defense needs, but also provided that the treasury carry a billion-dollar working balance through the next fiscal year. Secretary Morgenthau has argued that such a balance is necessary

See CONGRESS, Page 5

WEST'S RECLAMATION PROGRAM GIVEN FULL AID BY COMMITTEE

VIRTUALLY ALL INTERIOR DEPARTMENT MAJOR APPROPRIATIONS APPROVED

WASHINGTON, Mar. 4.—(AP)—The west's reclamation program for 1941 emerged intact today from an economy-minded house appropriations committee.

Reporting the annual interior department supply bill to the house, the committee recommended appropriation of $48,214,600 to continue work on irrigation projects in the next fiscal year. The sum was $195,000 more than had been requested by President Roosevelt in his budget message.

Virtually all major appropriations recommended by the President for individual projects came from the committee untouched, including $3,000,000 for the Colorado river project (Marshal Ford dam) in Texas.

For construction work on other undertakings, the committee recommended: Carlsbad, N. M., $50,000; Rio Grande, New Mexico-Texas, $72,000.

In arguing before the committee for the $3,000,000 for use on the Marshall Ford dam during the 1941 fiscal year, Reclamation Commissioner John C. Page said completion of the dam at a height of 260 feet at a cost of $24,991,000 will give "almost a complete protection" from floods downstream on the Colorado river from the structure.

Page said that $3,000,000 would be needed during the 1941 fiscal year beginning July 1 to continue work on the dam, leaving a balance of $3,711,000 to be appropriated at a future congressional session for completion of the project.

Greater Height Necessary

Page observed that the dam was completed last year to the 190-foot height originally planned, but that this was found to give inadequate protection for a flood which came about the time the work was done. Original plans had taken into consideration increasing the height if necessary so an appropriation was obtained to begin the additional work.

The commissioner submitted a statement showing that by the end of the present fiscal year $18,280,000 will have been spent on the project.

Page declared that the government would suffer a material loss if the work had to be shut down because of lack of funds. He said there was an estimated $400,000 worth of material at the dam

RUSSIAN ATTACKS ON VIIPURI FAILED AGAIN ON MONDAY

TWELVE HUNDRED RUSSIANS KILLED IN FIGHTING NEAR PETSAMO

HELSINKI, March 4.—(AP)—The Finnish high command announced today its forces, fighting invading Russians almost at the gates of Viipuri, had repelled attacks aimed at the city from three sides.

In addition the Finns reported fighting in the Arctic region far to the north, near Petsamo, and northeast of Lake Ladoga, where they said 1,200 Russians were killed.

The attacks against Viipuri were beaten back yesterday, according to the daily army communique, as the Russians attempted to advance across the ice of the Bay of Viipuri, at a second point between the bay and the Vuoksi river, and at a third point near Abraapa, a few miles further to the northeast.

As the Russians continued to pour a heavy land fire into deserted Viipuri, the Soviet air force

TEMPERATURE BABY'S MILK IS NO EXCUSE FOR SPEEDING AND FINE MUST BE PAID SAYS JUDGE

Something new in the way of "alibis" for excessive speed on the highways has been offered Justice of Peace C. A. Steele at Richland—and everything was blamed on a baby—but it hasn't worked yet.

The following letter was received from a South Texan recently:

"Dear Sir:

"Sunday afternoon I was stopped on the highway between Corsicana and Fairfield for speeding by State Highway Patrol officers Vance and Reid. They gave me a ticket which I signed agreeing to appear before you in your court at Richland, Texas, on March 2, 1940, at 10 a. m.

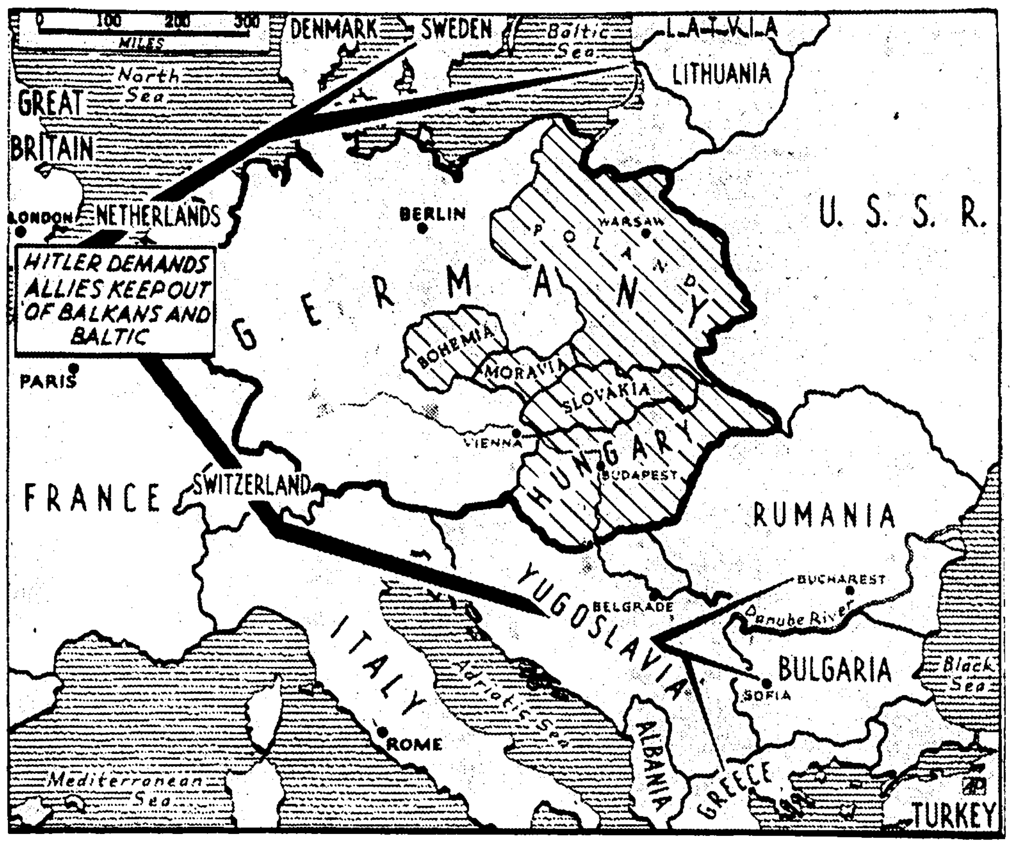
"Prior to the receipt of the above mentioned ticket, I had been traveling approximately sixty miles per hour on long straight stretches of open road. I had increased the speed of the car after leaving Corsicana because my four-months old son had awakened and he had started to cry very vigorously for his bottle of milk which was too cold for the infant. I was afraid the little fellow would hurt himself crying if I did not hurry on to the next town where I could warm his bottle of milk.

"This was the reason I was traveling so rapidly and I feel you understand my position in this case.

"I shall appreciate your dismissing this case against me."

Highway Patrolmen Reid and Vance, arresting officers, reported Sunday that Judge Steele had announced the fine had been assessed and had better be paid.

OUTLINE OF HITLER'S PRICE FOR PEACE



Sources close to Adolf Hitler believed that he told U. S. Undersecretary of State Sumner Welles that Germany will fight until Britain and France recognize a "German Monroe Doctrine for Central Europe" and restore her war lost colonies. Hitler's price for peace, according to this version, includes permanent German political domination over Bohemia-Moravia, Slovakia, Poland and Hungary—this territory is shown by diagonal lines. Germany now dominates all of this territory except Hungary. The plan also provides that Britain and France promise not to stir up the Balkans and Scandinavia and that "stranglehold control" of the Suez canal and Gibraltar be stopped.

BRITISH-ITALIAN AGREEMENT RUPTURE APPEARS IMMINENT

BLOCKADE OF ITALIAN COAL IMPORTS FROM GERMANY IS RESENTED

By G. C. JORDAN

ROME, March 4.—(AP)—A rupture of the British-Italian "gentlemen's agreement" regulating the Mediterranean relations of the two countries appeared threatened today as a result of the British blockade of Italian sea-borne coal imports from Germany.

Italy, asserting that her interests were "seriously injured" by this blockade, made public a vigorous protest against the effects on non-billigerent nations of Britain's "economic war."

The note, bristling with charges of illegality, was delivered yesterday to the British embassy. The coal blockade, it said, "is of a kind to disturb and compromise the economic and political relations" established by the agreement April 16, 1938.

While the coal blockade was the immediate occasion for the protest, the Italian note included a general complaint against the entire system of contraband control.

Seconding the United States' protests against interference with the mails, the note called such acts "flagrant violation" of postal secrecy with the 11th Hague

Field Survey Milk Routes In Navarro County Being Made

Field surveys of proposed Navarro county milk routes were started Monday morning by representatives of the Corsicana Chamber of Commerce and J. T. Hutto, field representative of the Borden Milk Company.

Territory to be included in each of the routes and other information will be announced later in the week officials reported and a meeting of all interested persons has been announced for next Monday night, March 11, at the courthouse in Corsicana beginning at 7 p. m.

In the meantime, the actual surveys of the routes will continue and as many individual prospective customers will be contacted as possible. Several community meetings in interest of the dairy program have been arranged and others are tentatively set.

A meeting will be held at Rice on Tuesday night, and another at Dawson at 1:30 Wednesday afternoon. The tentative dates are Cryer Creek on Wednesday night and Mildred on Thursday.

AMERICAN MILITARY MEN UNABLE FORESEE OUTCOME NEW WAR

SIX MONTHS OLD CONFLICT HAS REACHED DEADLOCK POINT AT PRESENT

By EDWARD E. BOMAR.

WASHINGTON, March 4.—(AP)—After six months of the European war, American military men were in substantial agreement today that the conflict has reached a deadlock and that the way out is not in sight.

Otherwise, officers whose duty is to form judgments unclouded by sympathies differ on whether a military decision is likely to result from the existing lineup of forces, and, without that, whether time favors the British-French allies or Germany.

Few military men expect a mass offensive of World War style on the western front with the advent of spring, and few believe the final outcome will be affected materially by the fate of Finland.

A cautious majority inclines to the view that the allies already have won the upper hand, and that economic strangulation and an eventual stroke of some kind should ultimately bring the Nazis to terms.

An impressive minority contends privately that the British and French face the greater peril from the long siege-war of attrition, starvation and nerves which they anticipate.

Germany, by this estimate, is offsetting effectively the loss of overseas commerce by drawing oil and other supplies from Russian and Balkan sources; can defeat any prospective military thrusts; has a disciplined population less likely to crack under pressure than the British and French.

At the moment, many professional observers see the most promising chance for a break in the deadlock in successful British-French efforts to enlist allies and set up new fronts which will close the back door to Germany.

MOUNTING ACTIVITY ON WESTERN FRONT; NEW NAZI TROOPS

BOTH GERMAN AND FRENCH REPORT CAPTURE SEVERAL PRISONERS

By HENRY C. CASSIDY.

PARIS, March 4.—(AP)—French military dispatches reported fresh divisions were entering the German lines amid mounting activity today on the western front.

Reichswehr reinforcements of "several" new divisions were said to be arriving behind the active front while aerial feints back and forth across it intensified over the week-end, stressing the belligerents' anxious watch of each other for a hint of spring-time tactics.

Other German units were reported moving into the region facing Switzerland.

The Germans simultaneously took the initiative in a series of week-end raids between the Rhine and Moselle rivers.

A German raiding party succeeded in taking several French prisoners after an attack yesterday on the edge of the Vosge mountains apparently in the search for information on French troop assignments.

The French countered with an ambush in the Wissembourg gap on the eastern flank of the front where a German squad was trapped and several of its members captured.

A broader German assault on two French advance posts in the Nied river sector near the center of the front also was reported repulsed.

These were only some of numerous miniature battles breaking out all along the front, with infantry

See FRANCE, Page 5

FIRST GERMAN AIR ATTACK IN CHANNEL KILLS OVER HUNDRED

NAZI BOMBERS SWOOPED DOWN LOW AND BOMBED PASSENGER LINER

LONDON, March 4.—(AP)—Rumblings of dissatisfaction with Britain's war leadership sounded in the press today with reports of the first German aerial attack in the English channel.

A Heinkel bomber swooped on the 8,441-ton liner Domala with bombs and machine gun fire, probably killing 108 persons—the heaviest toll aboard a merchantman since the Athenia went down with a death list of 113 on the first day of the war last Sept. 3.

Never before had a German warplane raided shipping west of the Straits of Dover.

The attack occurred about dawn Saturday, but it and four other week end blows to British shipping became known amid mixed foreboding and confidence over the course of the six-month-old war.

Although the Daily Mail found "proof of our supremacy" in the activities of the British navy and air force, it warned of the necessity of knowing "we have the right men" in the government.

"It may become necessary to inquire whether we are as well served as we should be by the higher command of the Royal Air Force," it declared.

The Domala, towed to an undisclosed port after bombs had set her afire and shattered her bridge, was the first big British passenger ship victim of German parplanes.

Of 301 persons aboard, 20 Britons and 88 British Indians were feared lost. The Domala carried 253 Lascars being repatriated from internment in German ports. She sailed from Antwerp, Belgium.

Many Killed in Bunks.

Many were said to have been killed in their bunks when the plane dived and swept the ship's decks with machine gun bullets.

One eye-witness said the bomber carried full navigation lights, and the Domala's crew mistook it for a British plane until it dropped to 40 feet above the ship and released the first bomb.

The sinking of another, unidentified British vessel was reported

See BRITISH, Page 5

Germany Offers Complete Apology In Belgian Affair

BRUSSELS, March 4.—(AP)—Germany presented a complete apology today for the killing of a Belgian army aviator in a clash between three Belgian planes and a German bomber on Saturday.

The Belgian foreign office said the German ambassador, Vicco Karl Von Buelow-Schwante, called on Foreign Minister Paul Henri Spaak and expressed "very sincere regrets."

German aviators again have been warned not to fly over neutral nations, it was reported. An official German version of the incident was that the pilot of the big Dornier bomber thought he was over France and facing three allied fighting planes when he opened fire on the Belgians.

It was announced Germany was prepared to examine any indemnity demand by the Belgian government.

ENFORCEMENT OF CONNALLY HOT OIL ACT IN EAST TEXAS IS DESCRIBED AS SAFETY VALVE

WASHINGTON, March 4.—(AP)—Enforcement of the Connally hot oil act in East Texas was described before a congressional committee as "the safety valve" insuring orderly conduct of the nation's petroleum industry.

George W. Holland, director of the petroleum conservation division, testified before a house appropriationus subcommittee during hearings on the interior department appropriations bill.

Holland submitted a statement showing that 65 of the 89 employes of the division were employed at Kilgore, Tex., where the sole federal oil tender board is maintained.

Representative Rich (R-Pa), noting that only 8 division employes were located in other oil states, asked Holland why so many persons were needed in Texas.

"In my opinion the orderly enforcement of the Connally act in the East Texas field is the safety valve of the while situation," he replied. "We have about 26,000 oil wells in that one field."

He said that the East Texas field should produce untimately about 5,000,000 barrels, adding that without the present conservation regulations in force, at least 1,000,000,000 of this amount would be lost through water encroachment which would leave oil pocketed in spot from which it could not be drawn.

Defending the Connally act, which prohibits the shipment across state lines of oil produced in violation of state laws, Holland decried the failure of California and Illinois to adopt conservation laws similar to those of Texas.

He said Illinois is "cutting" its fields and threatening the entire oil-producing industry of the country.

Four Men Drowned California Floods

REDDING, Calif., March 4.—(AP)—Four men were drowned in flood swollen waters of Northern California yesterday, the coroner's office reported today.

Three were reported drowned near Lewiston when their rowboat capsized.

The victims were Cecil R. Lloyd, 34, Ludwig M. Anderson, 49, and Arthur H. Greeley, 33.

Ray Drimble, 45, drowned near Douglas City.

WHAT MEN CAN STAND

A great human document came from Helsinki the other day. It was a letter from a Finnish officer in the Mannerheim line, telling what men endure in modern warfare of the intensity shown on that front.

"I am not ashamed to confess," he says, "that artillery fire to me, as to most others, is simply revolting. I feel like pressing my hands against my ears and crying out in pain.

"The explosion of six-inch shells on the average every fourth second during nine consecutive hours, the incessant detonation and screaming splinters and the blinding bursts of flame, create in our bodies unspeakable terror which can only be overcome by one's entire psychic courage.

"It is killing to try to be an example to one's men, to joke, to suck calmly on one's pipe, feeling at the same time that every nerve is as taut as a violin string. To know that if one should for a second lose self-control, hands would begin to shake, the head to nod and eyes to blink — which has happened to several of my men. It is terrible to try, by encouragement, to make such men carry on.

"If the Russians had been subjected to a fraction of the drumfire which has been poured over us the last 24 hours, the entire seventh army of the U. S. S. R. would have been in wild, panicky flight toward their steppes. The superiority of materials and masses is so overwhelming, it is inconceivable how we can withstand it, but we do."

And this is modern warfare. It is well to know what hell modern war is. God help those poor fellows over there and preserve us from what they are going through!

PRINTING

It is natural for western nations, those of Europe and America, to think they have created civilization and invented all its useful things. But we are often humiliated by learning that we have simply borrowed or stolen or rediscovered them. And so often has China come into the picture that it almost seems sometimes as if that ancient race has forgotten more than we have yet learned.

Thus, in celebrating the most useful of modern inventions, printing, as we shall do this year, and giving credit to the great German Guntenberg, as he doubtless deserves, we cannot grant him complete originality. He only made practical for the western world 500 years ago what Chinese inventors had accomplished perhaps 1,000 years before that.

The Chinese made paper, too, much like ours, for printing. And the Sumerians, who preceded the Babylonians in western Asia, are said to have used a small rotary press for printing on clay 5,000 or 6,000 years ago. A similar device was probably used often, in many places, in the meantime.

The great contribution of western countries was in making general use of an old idea whose possibilities had not been fully realized.

* * *

The highways aren't overrun with auto trailers as some people feared they would be, but there are enough Tin Can Tourists to hold annual conventions in pleasant vacation spots.

When nations expect war, they generally get it.

JUST FOLKS

(Copyright, 1937, Edgar A. Guest)

IT TAKES TIME TO LEARN

When I was two and twenty—
that was many years ago—
There was very, very little I've
have said I didn't know
I could answer all the questions.
I was certain of the truth,
Which of course is an affliction
that is commonest in youth.
But time either makes or breaks
us and the older that we grow
Past that adolescent madness less
and less we seem to know.
But here's a fact I'll swear to, for
I'm certain it is true—
No man's as sure at fifty as he
was at twenty-two.

Life to youth seems very simple.
plainly marked are good and
bad.
Other folks are very foolish, in
the judgment of the lad.
It's beyond his comprehension
why so few know right from
wrong;
Why so many people blunder and
so few can get along.
Fine his scorn of human error,
loud his talk of what he
knows
And we sometimes have to chuckle
at the wisdom which he shows,
But we know that he'll discover
if he lives that period through
No man's as sure at fifty as he
was at twenty-two.

Strange indeed the ways of knowledge.
First it fires our self-esteem.
Gives us wisps of facts to cling to
and so very stout they seem;
It leads us and it lures us with a
thousand pretty lies,
And it tricks us into thinking we
alone at last are wise.
Then it turns us loose to blunder
and to stumble and to fall,
And it teaches us through heartache
life's not simple after all.
Thus it trains us to be humble
since the great are very few,
And no man's as sure at fifty as
he was at twenty-two.

KEEPING OUT OF WAR

At present, if we accept the verdict of Gallup poll, our chances of getting into the European war as we did last time are now less than one in four. Five months ago 44 per cent of the people who were asked about it favored sending our army and navy to help Britain and France if they seemed in danger of defeat. Today only 23 per cent take that view.

The trend of opinion is reassuring. But we cannot be certain of holding the same opinion indefinitely. Sentiment from month to month or year to year may vary greatly with developments abroad. Millions, if actually facing a decline of the power of the free countries of Europe and a possibility of the dictator countries triumphing would feel very differently about it.

We must be idealistic and also practical. We can help preserve, abroad, the freedom and decency of the type of civilization our country represents, by giving our moral support. We may also need to give some support in more concrete ways, short of belligerency and in harmony with international law as it applies to neutrals, as we are doing in Finland. As far as practical observers can see now this attitude should suffice.

PRODUCER-CONSUMER

Dr. Glenn Frank, studying the economic situation of this country, concludes that it isn't hopeless. if we have 9,000,000 more people to take care of than we had a decade ago, by the same token we have 9,000,000 more customers for goods and service. The market grows with the population.

That isn't the whole answer, of course, but it's an important part of the answer. Every normal citizen is a consumer as well as a potential producer. A growing population means a growing domestic market along with the growing capacity to supply that market. When economic worriers really let such a simple fact soak into their minds, they're in a better mood to go ahead with plans to expand production and distribution in lines where there isn't enough of either.

Right now it is generally agreed that housing offers the best opportunities for the next few years. New kinds of houses with new features in them, and cheaper homes for the masses.

* * *

Turkey is certainly going modern. The government has started controlling prices. The price of Turkish goods used to be whatever anybody would pay.

FIRE IN SCHOOL BUILDING OF IOOF HOME FRIDAY NIGHT

Trash piled on top of steam pipes under the school building of the Odd Fellows Home became ignited Friday night and caused a run for the fire department about 9 o'clock. It was necessary to cut holes in the floor to put out the flames. Damage was not estimated.

A car fire at the corner of East First Avenue and Highway 75 caused a run about 8 p. m. Friday but little damage resulted.

Safety Supervisor Lone Star Gas Co. Presented Awards

"In recognition for jobs well done," A. W. Breeland, safety supervisor for Lone Star Gas company, presented awards for a total of 520,568 man hours worked without a disabling injury, to men representing five units of Lone Star Gas System in the Corsicana area, at a safety meeting in the local office of Community Natural Gas Company Friday night.

Approximately forty gas men from this area attended the meeting and witnessed presentation of a bronze plaque to L. E. Southhard, foreman of Richland pipe line district for Lone Star, whose men have worked ten years without a disablement, or a total of 304,703 man hours. Mr. Breeland also presented safety awards to two districts for five year records and two for one year records. Ross L. Dixon, Athens district manager for Community Natural, accepted a five-year plaque for 33,451 man hours worked. A. A. Johnston, Mexia district manager, accepted a five-year plaque for his district for 123,882 man hours worked. F. V. Williams, Corsicana district manager, received a one-yead plaque for 33,159 man hours worked and Dave Trussell, Ferris sub-district manager, accepted a one-year award for Ennis district for 25,373 man hours. Mr. Trussell represented L. D. Black, Ennis manager who could not attend.

More Farm Checks

Payments to Navarro county cotton producers for 1939 cotton adjustment total $421,149.85 with the receipts of 67 checks Friday amounting to $1,954.83.

Seeking Location

J. E. Simmons, of Mexia, was in Corsicana Saturday seeking a location for the construction of a modern apartment house.

Mr. Simmons is the owner of a large apartment house in Mexia.

Friends,
I am asking for the office of County Treasurer. I wish to state that the duties incurred by this office are attended to by the County Auditor and the Assistant County Treasurer. Therefore, I feel qualified, though blind, to hold this office. I made the race in 1938 for this office and I received a large vote for which I am very thankful. I am a married man and I have no means of support for myself and wife, and if you can help me to help myself, by electing me to this office for two years, my wife and I will ever be grateful to each of you.

News of County Home Demonstration Clubs

Oak Valley Club.

In many homes the kitchen is the logical spot in which to lacate the business center, Miss Clara Rettiger, Navarro county home demonstration agent, told members of the Oak Valley club, in the home of Mrs. C. E. Williams, Feb. 22.

Miss Rettiger continued the discussion on the business center in the kitchen by saying that a business center is a storage place for business records, bulletins, instruction books, catalogues, valuable papers, and receipts. And may serve a varied number of needs. If conveniently located where the busy homemaker and the entire family may use it frequently, it becomes a real asset to any home. And as the homemaker spends many hours a day in the kitchen, preparing meals, this is the most convenient place for the business center. She also said the equipment for this center may be as simple or elaborate as desired. Such as a cabinet drawer used only for this purpose, or a small table with a set of drawers above it may be both convenient and attractive, or a wall desk with a drop-leaf, which when open provides writing space. The wall desk was demonstrated by the agent which was found to be very useful an dinexpensive.

New members weer Mrs. W. A. Rogers and Mrs. Hue Gordon. The president appointed Mrs. John Bennett as kitchen demonstrator for the year.

The hostess served a refreshment plate of cherry pie, whipped cream and coffee, to 21 members and six visitors. The xisitors were Mrs. R. H. Beale, Mrs. C. W. Bayliss, Mrs. W. N. Hamilton, Miss Addie Parrish, Miss Dorothy Elmore, Mrs. J. G. Crawford.

The next meeting will be with Mrs. T. E. Young and Mrs. S. E. White, in the home of Mrs. Young, March 14.—Reporter.

Much Construction Work in Corsicana

Corsicana's construction work took on boom appearances in the past few days, and as a result building permits were issued from the office of the city engineer amounting to $15,665 and bringing the totals for the calendar year to $29,307. This compares with a total of $31,540 for the same period of 1939.

The permits included:

Mrs. Puther A. Johnson, 925 South Fourteenth, repairs after fire, $115.

Tekell Furniture Company, 309 North Beaton, make opening between two brick buildings, $300.

E. G. Burchfiel, 1806 Maplewood, seven-room frame residence, $5,250.

S. J. Miles, Jr., 1601 Ficklin, five-room frame residence and attached garage, $2,800.

Burson & Pearson, 314 North Fourteenth, repairs to frame dwelling, $70.

Burson & Pearson, 502 West Fourth avenue, repairs to dwelling, $80.

J. M. Smith, 802 South Sixteenth, four-room frame dwelling, $1,250.

N. M. Hawkins, corner West Third avenue and North Twenty-first street, one-story frame residence, $5,800.

Dr. E. R. Friedman Locates In City

Dr. E. Richard Friedman, of Youngstown, Ohio, is now identified with the Sam Dalches Jewelry store and is in charge of the optical department.

Dr. Friedman comes to Corsicana with the highest of recommendations and the Dalches organization feels fortunate in securing his services.

Dr. Ellis Carp, formerly connected with the store in the above capacity has accepted a place in Beaumont.

Hospital Treatment For Local Children

Hazel Murray was taken to the Freeman Clinic in Dallas Wednesday for treatment by Mrs. H. G. Brown, local representative of the Texas Society for Crippled Children and member of the board. They had the pleasure of meeting Gene Autry, famous film and radio personality, who visited the clinic and presented a program of songs for the pleasure of some 250 children. Hazel had a thrill of shaking hands with Gene and talking to him.

Domingo Figueroa and Alvon Vernon Richardson were also given treatment in Dallas hospitals during the past week, Mrs. Brown reported.

Children taken to Galveston for treatment Friday were reported by Mrs. Brown as follows:

Elizabeth Edmondson, Jerome Borsellino, Mose Gowan, Eddie Gene Watts and Dolores Clayton.

The annual sale of Easter Seals will be officially launched Monday, it was stated by Mrs. Brown. The money received from the sale of the seals will be used in the work aiding crippled children.

County Treasurer.

In another place in today's paper will be found the formal announcement of T. P. (Perry) McGee as a candidate for the office of treasurer of Navarro county, subject to the action of the Democratic primaries.

Mr. McGee has resided in Corsicana for the past 30 years. He is the son of Mrs. Maude McGee and a brother of Cotton McGee. He had many friends throughout the county, all of whom feel that he is well qualified to hold the office he seeks and should he be elected he will conduct the office in an efficient and competent manner satisfactory to all concerned.

The voters of Navarro county are respectfully requested to give Mr. McGee's candidacy serious consideration when they cast their ballots for the office of county treasurer in the coming Democratic primaries.

FINLAND, SWEDEN AND NORWAY GRANTED OF LOAN $45,000,000

JESSE JONES ANNOUNCES LOANS AFTER STATEMENT OF PRESIDENT

WASHINGTON, Mar. 1.—(AP)—Jesse Jones, federal loan administrator, announced today the Export-Import bank had allocated $20,000,000 for an additional loan to Finland, had made a $15,000,000 loan to Sweden, and also had made a $10,000,000 loan to Norway, which previously had been tentatively announced.

Jones said the trustees of the Export-Import bank acted after President Roosevelt advised him he would sign a bill increasing the bank's capitalization by $100,000,000.

Proceeds of the loans may be used for purchases in this country only, and no part of the money may be used for arms, ammunition or implements of war as defined in the President's proclamation under the neutrality act.

The money may be used for purchase of commercial aircraft.

HEADQUARTERS OLD AGE ASSISTANCE IN COURT HOUSE MOVED

The old age assistance headquarters maintained for several years on the second floor of the Navarro county courthouse Thursday were moved to the relief headquarters at the old natatorium building.

The delinquent tax collection offices formerly maintained in the commissioners court room on the second floor have been moved into the office vacated by the old age assistance officers and the commissioners court Friday resumed its meeting at its former location. During the time the delinquent tax collection personnel officed in the commissioners room, the court met in the county courtroom or in the office of Paul H. Miller, county judge.

Married Here Thursday.

Walter E. Story and Irene Ficklin, both of Powell, were married Thursday evening at the home of Judge and Mrs. A. E. Foster. The ceremony was performed by Judge Foster.

MSGR. V. GRAFFEO PREACHED SUNDAY ON SUBJECT EUCHARIST

On the fourth Sunday of Lent, the Very Rev. Msgr. V. Graffeo, pastor of the Immaculate Conception church, preached at both morning and night services on the real presence of Christ in the Sacrament of the Blessed Eucharist.

He read the gospel of the day according to Saint John, sixth chapter, where Christ promised to institute the Sacrament of the Blessed Eucharist in the following words:

"I am the living bread which came down from heaven.

"If any man eat of this bread, he shall live forever; and the bread that I will give is my flesh, for the life of the world.

"The Jews therefore strove among themselves, saying: How can this man give us his flesh to eat.

"Then Jesus said to them: Amen, Amen, I say unto you: Except you eat the flesh of the Son of Man and drink His blood, you shall not have life in you.

"He that eatest my flesh and drinketh my blood hath everlasting life; and I will raise him up in the last day.

"For my flesh is meat indeed; and my blood is drink indeed.

"He that eateth my flesh and drinketh my blood abideth in me; and I in him.

"As the living Father hath sent Me and I live by the Father; so he that eatest Me, the same also shall live in Me." 51-58.

These words Christ addressed to a multitude of five thousand men after the marvelous miracle of the multiplication of five barley loaves and two fishes by which he fed them all. St. John narrates this miracle in order to open the way to the narrative of the promise of the Blessed Eucharist. Our Lord considered the present a favorable occasion for speaking of the Sacrament of His body and blood, which was to be distributed, not to a few thousands, but to millions of souls; not in one place, but everywhere; not at one time, but for all days, at the end of time.

The speaker made it clear that these texts are to be taken literally and not figuratively, as few passages taken at random so imply. When our Saviour says to the Jews: "Your fathers did eat manna and died . . . but he that eateth this (Eucharistic) bread shall live forever," He evidently wishes to affirm the superiority of the food which He would give, over the manna by which the children of Israel were nourished. Now, if the Eucharist were merely commemorative bread and wine, instead of being superior, it would be really inferior to the manna, for the manna was supernatural, heavenly, miraculous food, while bread and wine are natural and earthly food.

The best and most reliable interpreters of our Saviour's words are the multitude and the disciples who were listening to Him. They all understood His words precisely as they are understood by the Catholic church. They believed that our Lord spoke literally of His body and blood. The evangelist tells us that the Jews "disputed among themselves, saying: How can this man give us His flesh to eat?" Even His disciples gave expression to their doubt in this milder form: "This saying is hard, and who can hear it?"

They were shocked at our Lord's promises and "after this many of His disciples went back and walked no more with Him." They evidently implied, by their words and conduct, that they understood Jesus to have spoken literally of His flesh; for, had they interpreted His words in a figurative sense, it would not have been a hard saying, nor have led them to abandon their Master.

The Study Club will meet Tuesday night at 7:30 to continue the discussion on prayers in common use in the church.—Reporter.

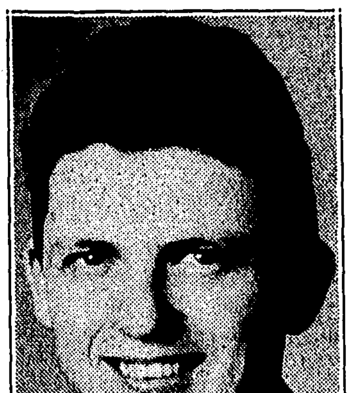
Auto Firm Official



Silas G. Fry (above) has purchased an interest in the Beaton Motor Company which has been incorporated, it has been announced by Russell Purifoy, owner.

Officers for the firm will be Russell Purifoy, president; Silas G. Fry, vice president, and Mrs. Emogene Green, secretary-treasurer.

Mr. Fry was salesman for the firm five years and resigned January 1, 1939 to accept another position. He returns as part owner and has assumed his duties as salesman in addition to his executive capacity.

Mr. Purifoy announced that there would be no change in policy or location of the firm and that they would continue to handle Buick automobiles.

'NO WOMEN WANTED' TITLE OF PLAY BY CHS SENIOR CLASS

"No Women Wanted" is the somewhat startling but appropriate title of the annual senior high school class play to be presented Friday evening, March 8, in the auditorium of the Corsicana high school beginning at 7:45 o'clock.

The play is a comedy written by William F. Davidson and Sara Sherman Pryor and presented by special permission of the Dramatic Publishing Company, Chicago, Illinois.

The following pupils will take part in the production: Bill Lang, Kenneth Allison, Eugene Rice, Patsy Ann Jeffers, Jack Marr, Peggy Ann Levy, Carey Kinsolving and Cullen Dunn. E. H. Anderson, Patty Collins and Kathleen Goode are assisting with the production as stage managers and property managers. The play is being directed by G. T. Dickinson, high school English teacher.

MRS. E. BLUMROSEN DIED LOCAL HOSPITAL ON MONDAY MORNING

Mrs. Esther Blumrosen, aged 80 years, resident of Dallas, died at the P. and S. Hospital Monday morning. Funeral services were held Monday afternoon at 5 o'clock from the chapel of Sutherland-McCammon Funeral Home and interment was in the Hebrew cemetery.

Rabbi Harry Shapiro conducted the rites. Mrs. Blumrosen was a resident of Corsicana many years prior to her moving to Dallas.

She is survived by one son, Mose Blumrosen, Corsicana; one daughter, Mrs. Will Garonzik, Dallas; and six grandchildren.

Ex-Convict Gets Ten Years Theft Automobile Here

CITY SCHOLASTIC CENSUS NOW BEING TAKEN BY FACULTY

FULL ENUMERATION IS OF VITAL IMPORTANCE TO WELFARE SCHOOLS

The scholastic enumeration of the Corsicana Independent School District, required by law and supervised by the board of education, is now being taken by W. D. Pollan, census trustee, assisted by faculty members of the city schools, Superintendent W. H. Norwood of the Corsicana public schools, has announced.

The enumeration is of vital importance to the welfare of the schools for next year. For every child counted the local schools will receive a state appropriation of $22 with which to carry on the next year's work.

The scholastic enrollment last year was 3510 with 306 transfers.

It is the desire of the board of education to have every child of proper age who is a resident of the city of Corsicana listed on the enumeration. The enumeration has no connection with the state compulsory attendance law, Superintendent Norwood said.

Each year it has been found that in four ways some children have been inadvertently omitted from the rolls and as it has been previously requested it is hoped that omission coming under the following headings will be reported to the superintendent's office:

(1) Those who may have been out of the city during the census taking.

(2) Those moving to Corsicana since March 1.

(3) Children who will not be 18 years old on or before Sept. 1, and because of graduation and other reasons are not now in school.

(4) Children under six years old who are not now in school, but intend to enter next year, because they will be six years old on or before Sept. 1. Children who do not live in the city, but who are attending the Corsicana schools now or plan to attend next year must be enumerated in districts wherein they live and a transfer from the county superintendent's office must be requested before August 1.

Children being counted in the census are those who will be six and under 18 years of age Sept. 1, 1940, and who are residents of the district on the first day of April. Children born on or before Sept. 1, 1922, or after Sept. 1, 1934, are not enumerated, Superintendent Norwood said.

AGED NATIVE OF NAVARRO COUNTY BURIED SUNDAY

Funeral services for Mrs. Rebecca Ward Payne, aged 83 years, native of Pursley, who died in Rice Saturday morning, were held Sunday afternoon at 3 o'clock from the Corley Chapel. Interment was in the Ward cemetery. The rites were conducted by T. B. Thompson, Church of Christ minister of Corsicana, and Rev. Griggs of Rice. She had been ill for several weeks.

Mrs. Payne was the daughter of the late John Ward, pioneer Navarro countian, who donated the land for the Ward cemetery.

Surviving are three daughters, Mrs. Lela Dobbs, Rice; Mrs. J. R. Sharpley, Houston, and Miss Lucy Ann Payne, long-time teacher in the Fort Worth schools; two sons, C. M. Payne, Pursley, and M. Payne, Dallas; a sister, Mrs. Leota Fullerton, Corpus Christi, and nine grandchildren.

Pallbearers were Norvil Payne, Jim Payne, J. C. Payne and J. W. Sharpley, grandsons, and Milton Bailey and Dick Rogers.

Kerens Sorocis Club Discussed Safety In Meeting of Feb. 27

KERENS, March 4.—(Spl.)—The Sorocis club met on Tuesday, Feb. 27, in the home of Mrs. Boyd Murrell. After dispensing with such business as roll call, reading of the minutes and reports of various committees, the president introduced Mrs. H. W. Hoffer, who led the hobby ride on "Safety." Safety is a woman's heritage, stressed Mrs. Hoffer.

Mrs. Opal Wright then very thoroughly discussed "Safety of Peace" aadd gave some remedies for our present disturbed war condition.

"Lest We Forget" was presented by Mrs. Bert Inmon, which was a caution on driving and the observance of all highway signs and signals.

Miss Louise Blissett discussed "Town Hazards," giving some information on how to make a hazard a safeguard.

Traffic Safety Director R. P. Walker was present and favored the club with a discussion of some of our traffic problems, distributing literature on how to overcome these things.

After adjournment, refreshment plates of tuna salad, ritz, hot tea and cookies were served to the club and guest, Mr. Walker.

Julius Jacobs

Candidate for
CRIMINAL DISTRICT ATTORNEY

—has made the following announcement for publication. "It has come to my attention that a false *rumor is being circulated* to the effect that I have withdrawn as a candidate for Criminal District Attorney. Nothing could be farther from the truth. On the contrary, I have received sufficient encouragement within the past few weeks that I am now more firmly convinced than ever that the good citizens of Navarro county desire a change in this office. I have not withdrawn from this race, and I do not intend to withdraw. I shall remain a candidate until the people of this county express themselves. Again I solicit your support and patronage, and express my appreciation for many of the kind remarks that have been made concerning my qualifications to hold this most important office in the county."

Sheriff's Office.

There were 92 prisoners lodged in the county jail during February.

A white man was arrested in Kaufman county Friday by Deputy Sheriff Jeff Spencer and Constable Fitzgerald of Ennis and a shotgun allegedly stolen near Rice from an automobile last Decemrer was recovered. The shotgun was the property of Mr. Boatman at Waxahachie. The complaint was filed at the Rice justice court.

Adolphus Carroll, negro, wanted on bond forfeiture, was arrested in Dallas and was returned to Corsicana Monday by Deputy Sheriff Jeff Spencer to answer indictments in the local district court.

Constable's Office.

J. W. Chapman, weights and measures operative of the Highway patrol, with the constable's department cited 20 truck operators to justice court on charges of overloading.

One was arrested for drunkeness and one for vagrancy by Constable Clarence Powell and Deputy Constable Oscie Renfrow during the week-end.

Assessor and Collector's Office.

The collection of auto license fees and the issuance of the 1940 license plates began in earnest at the assessor and collector's office Friday morning.

Justice Court.

One was fined on a vagrancy charge Friday morning by Judge A. E. Foster.

One was fined on a drunkeness charge and ten for overloading during the week-end by Judge Pat Geraughty.

Ten were fined on overloading charges by Judge A. E. Foster.

HUDSON BROODERS
Keep Chicks Safe!

Chicks cannot stand chilling and over-heating. Hudson brooders with Micro-*Tem Control* maintain an even, steady heat, regardless of weather conditions. A special top set above the stove on V-type legs diffuses the heat from the top of the stove throughout the actual brooding area—*a real money-saver.* See the new Hudson brooders with their precision built valves, safe burners, stout drums, and sturdy canopies.

Model shown No. 135 with 34" canopy. 450 day-old chicks

INDIAN METHODIST MINISTER PREACHES AT FIRST METHODIST

A meeting of the Boy Scouts tonight at 7 o'clock, Workers' Council supper and program Tuesday night at 6:45 o'clock; church night services Wednesday night at 7:30 o'clock, and choir rehearsal Thursday night, are the principal items of activity for the First Methodist church this week. Starting next Sunday and running through Easter Sunday special pre-Easter services will be held at the church each night.

On Good Friday a special service will be held and Easter Sunday the day will start with the sunrise communion service, and a full day's special program with the annual Easter love offering being made, with the offering to cover several of the special activities of the church.

Dr. Riley preached at the I. O. O. F. Home in the morning.

At the morning church hour Sunday, several hundred observed communion administered by Dr. Riley and Rev. R. W. Nation; the monthly offering for the poor was taken, and the choir rendered special music.

Night services were resumed; some 70 members of the Green Flats Mission were special guests, cars being furnished by the membership to transport those who wished it to and back to the Mission. At the close of the night services eight from the Mission united with the church, six by baptism administered by the pastor, Dr. P. E. Riley. One little girl sang a hymn. The pulpit was filled by Dr. W. L. Parker, Indian Methodist minister, who told of the Methodist work among the Indians in Oklahoma. Mrs. Parker also spoke and gave several verses of a hymn in Indian sign language. A special offering was made for Dr. and Mrs. Parker.

There were 339 present in Sunday school, an increase over last Sunday of 40; there was 50 men present in the Brotherhood Bible class to hear Prof. O. F. Allen bring the message; Mrs. J. S. Callicutt was the speaker in the high school department; Mrs. E. B. Dawson was the leader in the young adult department; Mrs. Mable Wilkinson was the leader of the intermediate league; Doris Daniel was the leader in the young people's evening services.

Missionary Society Methodist Church Of Black Hills Meets

The Women's Missionary Society of the Black Hills Methodist church met Thursday, Feb. 29, in its regular meeting at the home of Mrs. John Montgomery.

Mrs. M. M. Pike, president, called the meeting to order with a song, "What A Friend We Have in Jesus." After which Rev. F. T. Fisher led the group in prayer. The business was taken care of. Since we had Mrs. J. K. Stroud of Groesbeck with us, we did not have our lesson, and turned the meeting over to her, who in a charming and capable manner delivered the group a very good sermon on mission work.

After we adjourned, Mrs. John Montgomery served refreshments to twelve members, one new member, Mrs. F. T. Fisher, and three visitors, Mrs. J. K. Stroud, Rev. F. T. Fisher and Mrs Heath Blake.

The group will meet next Thursday in the home of Mrs. M. M. Pike.—Reporter.

Sick and Convalescent.

J. Gilcrease was removed to his home from the P. and S. Hospital Friday afternoon.

Don Creech and J. D. Holder, both recently injured in an automobile mishap near Powell, were reported to be resting fairly well Saturday morning.

Mrs. M. E. Lake, who was seriously injured recently in an automobile accident, was reported to improving at the P. and S. Hospital Saturday morning.

Mrs. Ruby Henderson is a medical patient at the P. and H. Hospital.

E. E. Koehn, route 5 Corsicana, is a patient at the P and S Hospital.

Granddaughter Of Kerens Couple Is Winner of Honor

KERENS, March 4.—(Spl.)—Miss Peggy Walker of Trinidad, Colo., granddaughter of Mr. and Mrs. Whorton of Kerens, has been selected to represent the Trinidad High school on the Good Citizenship Pilgrimage, sponsored by the Santa Fe Trail chapter of the D. A. R. Miss Walker received the nomination over a number of contestants, and if she is selected at the state meeting, will receive a trip to the constitutional congress in April, with all expenses paid.

Miss Walker spends a part of all her vacations in Kerens, and her many friends here will rejoice with her over this honor.

Fairfield Firemen And Ladies Enjoy Annual Banquet

FAIRFIELD, March 4.—(Spl.)—Tuesday evening, Feb. 27th, the members of the Fairfield Volunteer Fire Department and their wives enjoyed a banquet at Cook's Cafe.

Mr. and Mrs. E. M. Steward and Rev and Mrs. W. R. Miller, attended as honorary members of the department, and Mr. and Mrs. H. L. Williford and Mr. and Mrs. P. D. Browne attended as guests of the department. Joe Richards presided in his imitable manner. All members were called upon by the toastmaster and all responded and P. D. Browne made a speech which was enjoyed by all.

Singing at Shady Grove

There will be a singing at Shady Grove, five miles south of Purdon Friday night starting at 7:30. The public is invited to attend.

FUNERAL RITES FOR C. T. BURNETT SUNDAY AFTERNOON

Funeral rites were held Sunday afternoon at 2 o'clock from the Corley Chapel for Charles T. Burnett, aged 65 years, of Fort Worth, who died in the P. and S. Hospital Friday morning after an extended illness. Interment was in Oakwood cemetery. The rites were conducted by Rev. C. R. Haden, Jr., rector of St. John's Episcopal church. Corsicana Lodge No. 63, I. O. O. F., had charge of the rites at the grace.

Surviving are his widow of Fort Worth, six sisters and a brother, all of Virginia.

Corporation Court.

One charge of intoxication and disturbing the peace, four of intoxication, one of failing to stop before a right turn on red light, one of operating a car without a tail light, one of intoxication and sleeping in a public place, one of speeding, and one of abusive language brought offenders into the Corsicana corporation court Monday morning.

CORSICANA DEBATERS FARED EXCEEDINGLY WELL IN MEET HERE

TWENTY-NINE TEAMS REPRESENTED MANY SCHOOLS IN TOURNAMENT

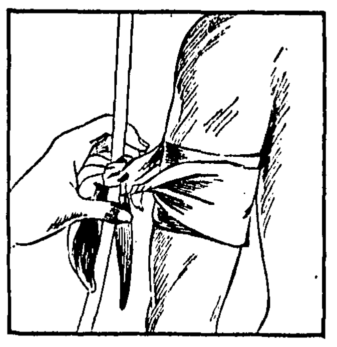
Corsicana debaters fared exceedingly well in the second annual Corsicana high school speech tournament conducted at the local senior high school Saturday with Miss Margaret Evans taking first honors in the girls' extemporaneous speaking department and Maurice Jackson winning first place in the boys' declamation contests. The tournament was conducted under the direction of R. A. Armistead, local debate coach.

Corsicana debate teams advanced to the semi-finals of the four round debate classic before being eliminated. North Dallas high school took both the boys and girls' titles in the debate division. Members of the winning teams of the Dallas boys' and girls' debating department include Huber Drumwright and Cecil Munn and Miss Marion Thomas and Miss Doris Huffhines.

First place winner in the girls' declamation contests was Miss Leona Farbestein of Waco. Ed Wroe of Austin took first place in the boys' extemporaneous speaking department.

Twenty-nine teams consisting of approximately 60 debaters and 60 extemporaneous speakers and declaimers from all parts of the state participated. High schools represented included Corsicana, North Dallas, Adamson of Dallas, Highland Park, Sunset of Dallas, Athens, Blooming Grove, Bruceville-Eddy, Denison, Ennis, Frost, Gaston, Grand Prairie, Kaufman, Kilgore, Malakoff, Mexia, Nacogdoches, Overton, Palmer, Rusk, Terrell, Waco, Wichita Falls, Tyler, Reagan, Houston, Austin, and Joinerville.

LEAVE 'EM WHERE THEY LIE



Hemorrhage—Leave 'Em Where They Lie.

When an artery is cut which pumps the blood from the heart, that is when you must put on a Tourniquet.

What is a Tourniquet?

It is something tied around the limb well (high) above the wound, and tightened until the spurting stops.

What can you use and how is it put on?

Use your necktie or belt or suspender or stocking.

Wrap it once around the limb, a hand breadth from any joint over some clothing (to keep from pinching the skin) and tie loosely. Then put a stick or pencil between the hand and leg or arm and twist the band until it tightens just enough to stop the spurting. Then every five minutes loosen it for fifteen seconds to let the circulation through and tighten again. Blood will clot (congeal) if given a chance.

(Prepared by the Fracture Committee, Texas State Medical Association; sponsored by Texas State Highway Department and Texas Public Safety Commission.)

Two New Kerens Homes.

KERENS, March 4.—(Spl.)—Two new homes are under construction, side by side, in Kerens this month. The houses are being built by John Anderson and his son, Jack, on the location of the Anderson home, which was destroyed by fire recently.

Mr. Anderson's home will be a modedrn, six-room structure with solid concrete foundation. That of the son will be very similar, but will contain four large rooms.

Be Quick To Treat Bronchitis

Bronchitis, acute or chronic, is an inflammatory condition of the mucous membranes lining the bronchial tubes. Even if other medicines have failed you may get relief now with Creomulsion. Chronic bronchitis can develop if your chest cold is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

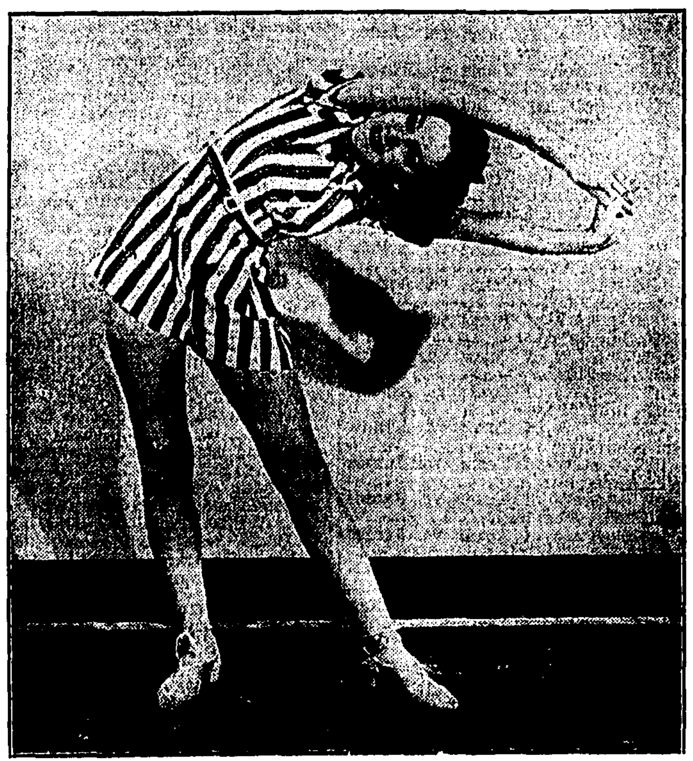
No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. See that the name Creomulsion is on the bottle and you will get the genuine product and the relief you want. (Adv.)

HEALTH, BEAUTY AND POISE

By VERONICA DENGEL

A NEW SILHOUETTE

Again the fashion silhouette is changing. From the tiny waist and rounded hip line of the past Winter and Fall, we come to an emphasis on the 'long, flowing line from bust to hip.' Firm your torso must be, slender your waistline, and smooth your hipline! No rest from the constant effort to keep slim and supple!



Bend sideways...Stretch upwards

Frankly, I think Fashion does us a favor by keeping the mode slim and young. She makes us all stay—or struggle to stay—slim and young! Indeed yes, if we were advised to wear *ruffles*, and *bouffant skirts*, and *stiff taffeta*, we would soon be depending on these to conceal our extra bulges and bumps. But no, we must be sleek and lean to wear the moulded silks and satins; and only watchful eating and daily exercise will keep us that way.

The exercise illustrated today is grand for the hip and waistline bumps. But do it regularly! Stand with legs apart, feet straight forward. Throw the weight to the right side raising the arms high overhead and clasping the hands. Now slowly bend sideways—directly sideways—to the left; just as far as you possibly can, and then a *little further*. Slowly *straighten* up, pulling the tummy in and up and reaching high at all times. Then shift the weight to the left side, and slowly bend sideways to the right side. Repeat this five times on each side, gradually increasing to ten times after the first week—and smooth hips will be the result!

All requests for personal "Health Beauty and Poise" information desired by Veronica Dengel's column followers must be accompanied by a fully self-addressed, stamped envelope (s. a. s. e.) Address: Veronica Dengel in care of this newspaper.

HOSPITAL BOARD MAKE CONTRACTS FOR P. & S. IMPROVEMENTS

Contract for an emergency operating room, purchase of a polishing machine and a "bucky table"—additional x-ray equipment—featured the regular meeting of the Navarro county hospital board at the P. and S. Hospital Sunday afternoon.

The emergency operating room expenditures will be $381.80, while the x-ray equipment was $358.75.

In the monthly report for February, there were 75 patients listed, including 16 charity patients. Collections amounted to $1,901.81, while expenses were $2,332.19.

Charity by the hospital amounted to $588.67, while charity of physicians was listed at $900.

Private telephone connections have been installed in three rooms at the instiution.

King Ranch Gets Check For $112,140 On Farm Payments

WASHINGTON, March 4.—(AP)—Secretary Wallace disclosed today that approximately 2,500 Texas individuals and concerns shared $5,667,334 in payments under the agricultural adjustment act for compliance with the 1937 program.

A check for $112,140 went to the King ranch in South Texas. It was among the largest issued in the country. Nearly 500 Texans received payments of $2,500 or more, several as much as $25,000. The checks were received during both 1937 and 1938, but were for the 1937 program.

Prosperious Year For American National

GALVESTON, March 4.—Last year was one of the most prosperous in the history of the American National Insurance Company of Galveston, it was shown by the company's recently issued 35th annual statement as of December 31st 1939.

The company strengthened its leadership among life insurance companies with an increase during the year of $73,092,083 of insurance in force, bringing the total to $777,285,815. Assets increased $7,518,224.47 for a total of $82,190,227.09. Since its organizasion the company has paid $97,147,282.40 to policy holders.

The statement shows cash assets of $14,491,589.48, with balances carried in 303 banks throughout the country. Other assets include $31,235,238.16 in bonds, of which $7,586,957.66 were U. S. Government and $12,092,471.94 were state, county and municipal; mortgage loans of $16,679,703.32; real estate $6,006,891.20, besides the home office building valued at $909,336.99.

News of County Home Demonstration Clubs

Powell Club

The Powell Home Demonstration Club met Friday, March 1, with Mrs. R. T. Lonon.

As the program dealt with the storage and preservation of foods; Mrs. McCullough gave a very interesting review on same. Bulletins entitled "Food Preseration Plan," were distributed to everyone.

The council delegate gave report on news from the council.

Names were drawn to see who her Sunshine Sister would be.

The high school is sponsoring a stunt night March 5, so our club plans to enter a stunt. Cash awards are offered for the best stunts.

Eleven members were present.—Reporter.

Announce Arrival of Baby.

KERENS, March 4.—(Spl.)—Mr. and Mrs. Clifton Goines announce the arrival of a baby daughter, born Feb. 21, at 2 a. m. Rita Anzanette weighed six and one-half pounds, and both she and her mother are reported doing nicely.

Special Announcement

We now have for distribution a Four-Color European War Map, size 22x34 inches, specially made for use in the home, office and school. This is not the ordinary news print map and is up to date in every particular. Every one should have such a map for reference. The regular retail price for these maps is fifty cents, but they can be had at the Daily Sun for twenty-five cents, which is the actual cost. The quantity of maps is limited, and first come, first served. Will be sent by mail for five cents extra.

Grains and Provisions

Fort Worth Cash Grain.

FORT WORTH, March 4.—(AP)—Moderate demand for grains was reported here today.

Wheat, No. 1 soft red winter nominally 1.07 1-2 1.08 1-2; No. 1 hard 1.04 1-2 1.06 1-2.

Barley, No. 2 nom 65-66; No. 3 nom 64-65.

Sorghums, No. 2 yellow milo per 100 lbs. nom. 1.29-1.31; No. 2 white kafir nom. 1.24-1.26.

Corn, shelled, No. 2 white 78 3-4 79 1-4.

Oats, No. 2 red 46-47.

Wheat Gains Lost

CHICAGO, March 4.—(AP)—Gains of about a cent in wheat prices were lost during the final hour of trading today and the market closed fractionally lower than Saturday.

Selling associated with the rather large receipts at principal markets, particularly in the northwest, offset purchasing credited to mills and cash grain dealers.

Wheat closed 1-8 to 5-8 cent lower than Saturday, May $1.00 1-2 3-8, July 98 3-8 1-4; corn unchanged to 3-8 higher, May 56 1-8 1-4, July 56 3-4; oats unchanged to 1-8 lower.

Hogs, salable 1,600; total 2,100; top 5.50; good and choice 175-270 lbs mostly 5.35-5.50; packing sows 3.75-4.25.

Sheep salable and total 1,500; most wkooled fat lambs 8.50-8.75; shorn lambs 7.00 down; strictly good lambs scarce; mixed grade shorn aged wethers 3.75; two decks of shorn ewes 3.25; wooled feeder lambs 7.00-7.50; shorn lambs 5.25 down.

Chicago Livestock.

CHICAGO, March 4.—(AP)—(USDA)—Salable hogs 13,000; total 21,000; top 5.75; bulk good and choice 180-240 lbs 5.35-70; good 400-500 lbs. packing sows 4.25-60.

Salable cattle, 11,0000; salable calves 800; early top 12.25 on weighty steers, with choice to prime long yearlings held above 12.75; stockers and feeders firm at 9.75 down to 7.75; best fed heifers 10.60; cows scarce; weighty sausage bulls up to 7.35; vealers steady at 11.50 down.

Salable sheep 6,000; total 8,500; bulk good and choice fed range and corn belt lambs scaling 94-100 lbs 10.50 and 10.60; lamb weight yearlings 9.00 t;wo year olds 8.00; best 118 lbs, fed range ewes 5.85; medium kinds 4.85.

Kansas City Livestock.

KANSAS CITY, March 4.—(AP)—(USDA)—Hogs, total and salable, 1,500; top 5.50; good to choice 170-240 lbs 5.35-50; sows 4.00-40.

attle, total 6000; salable 5,600; calves total and salable 400; early sales medium to ner choice fed steers 8.50-10.00; early sales medium to good heifers 7.50-9.00; most fat cows downward from 6.50; practical top vealers 10.50; choice short yearling stockers 10.75; light yearlings and calves 9.00-10.25.

Sheep, total 4600; salable 4,000; no early sales; best fed lambs held above 10.25.

RUPTURE

(Continued From Page One)

convention of 1907 "explicitly intended to guarantee."

Diplomats considered the Italian protest strong and the newspaper Il Popolo Di Roma described it is "measured in form but crushing in content."

The submission of all maritime traffic of non-belligerent countries to contraband control, the note said, "is manifestly abusive."

(When the British announced they would begin seizing all Italian ships sailing with German coal after midnight last Friday, a number of Italian colliers already were loading at Rotterdam. Six of these sailed for Italy today, five were expected to sail tonight and the remaining six tomorrow.

(Informed Rotterdam sources said yesterday they understood the British had agreed to exempt these ships from the blockade).

Newspaper Attack.

Italy's protest was accompanied by the newspaper attack of Robert Farinacci, fascist Grand Council member. He called the British blockade "reaction to our refusal to sell arms to England" and charged that Britain "hoped to oblige our country to buy coal from Welsh mines."

Italy objected to Britain's blockade of German imports as well as exports.

Control of Germany-bound ships, she contended, required "onerous and excessive documentation not compatible with normal secrecy of commercial dealings.. . . The rerouting of ships in control ports with delay frequently prolonged for days and weeks, causing very serious damage to equipment, to regularity of service and to carrying on of traffic and frequently paralyzing the supply of goods to non-belligerent countries with immediate and direct repercussions on industry and labor.

She took exception ot the blockade of German exports because it "profoundly disturbs the mechanism of international exchange, suppresses sources of supply and reduces the possibilities of production of non-belligerent states."

To Meet Cool Reception.

LONDON, March 4.—(AP)—Foreign office circles indicated today Italy's protest against Britain's stoppage of German coal shipments would meet a cool British reception.

"It cannot be assumed that we can waive rights and international interests which are maintained under international law," one British source said.

Swedish Steamer Sunk.

LONDON, March 4.—(AP)—The sinking of the 2,818-ton Swedish steamer Lagaholm was disclosed today when its crew reached a Scottish port.

FINLAND

(Continued From Page One)

backed up the attack with an aerial onslaught.

The Finns said their own air force bombed "enemy columns and sites of assembly."

The communique mentioned "heavy" Russian losses in the fighting around Viipuri, but did not estimate the casualties.

In the far north, the Finns said, their forces had driven the Russians back about two miles from Nautsi.

Yesterday the high command announced that 1,000 Russians had been slain at Kollaa, northeast of Lake Ladoga, where their attacks were repulsed by artillery fire.

On other fronts, where savage fighting was said still to be in progress, th Finnish communique yesterday was said still to be in progress, the Finnish communique yesterday reported gains on the eastern side of the Karelian Isthmus—where the Russian invaders have failed to dent the Mannerheim line—and at Kuhmo and Salla on the eastern front.

The fighting for strategic Viipuri involved Finnish withdrawals to new positions, but Russian attacks were repulsed generally, according to the Finnish high command.

Reds Report New Advances Monday

MOSCOW, March 4.—(AP)—Red forces closing in on Viipuri reported new advances to the north and south of the shell-shattered port city today and indicated strategy of encircling it and severing all supply lines before the knockout blow.

The newly won positions were Tuppuransaari, a Bay of Viipuri island 15 mies to the south, and Saarea, a hamlet an undisclosed number of miles to the north, the Red army announced.

On the island, the Reds reported capturing six fortifications. Five of them iron and concrete forts with heavy coast defense guns in full working order. At Saarela, the Russians said they took the fully equipped headquarters of a "large military formation" and four 75-millimeter guns.

The communique reporting the gains did not mention fighting in Viipuri itself, into which the Russians had said they battled their way Saturday, seizing the railway station and the surrounding southern end of town.

Closing of the noose on Viipuri would compel the Finns to withdraw completely, or run the risk of siege without promise of reinforcements and supplies.

The communique followed a fresh Moscow accusation that Gerat Britain and France were plotting to expand their own war against Germany by entangling Soviet Russia.

Must Employ Women

PARIS, March 4.—(AP)—The labor ministry announced today that employment of women would soon become compulsory in some French businesses and industries as part of the ministry's program of civilian mobilization.

Sell It Quick Through Want Ads.

STEELS, AIRCRAFTS MOVED FORWARD BUT MARKET WAS SLOW

MONDAY'S SESSION ANOTHER DAY WHEN NEWS FAILS HAVE ANY EFFECT

By VICTOR EUBANK

NEW YORK, March 4.—(AP)—Steels and aircrafts tilted forward in today's stock market but numerous issues continued to doze in narrow territory.

It was another of those sessions when neither good nor bad news seemed to have much effect on speculatives sentiment. The majority of traders leaned toward small commitments either way and, except for a few low-priced issues, sluggishness prevailed throughout.

Of the approximately 450,000 shares which changed hands in the five hours, Seaboard Air Line accounted for a sizable proportion. This stock turned over in 10,000 share blocks and advanced 12 1-2 cents at 37 1-2 cents a share in thee forenoon.

Gains of fractions to about a point were fairly well distributed at the close, but numerous issuees finished a shade behind or at the same as Saturday's final quotations.

An officially estimated drop in this week's steel mill operations of 1.3 points at 64.6 per cent of capacity failed to trip up stocks in this group, although most ended under the day's tops. The production decline had been expected.

Stocks in favor the greater part of the time were U. S. Steel, Bethlehem, Douglas, Aircraft, Boeing, Glenn Martin, American Telephone, Johns-Manville, Anaconda, Kennecott, Phelps Dodge and Standard Oil of N. J.

Bulova Watch directors voted an extra divident and the stock got up a point. Square "D" was up as much as the concern disclosed a sharp jump in earnings.

Bonds were moderately steady, as were commodities.

PRESIDENT

(Continued From Page One)

est. It was a gloomy March 4 seven years ago when he promised action to a people who had seen their world twisted awry by an economic tempest.

Banking Structure Crumbles.

Even as he touched a damp hand on his old family Bible and pledged himself to support the constitution, the banking structure of his country crumbled.

Searching through wartime laws, Mr. Roosevelt found the authority under which he proclaimed a four-day bank holiday, an embargo on the withdrawal of gold or silver, and heavy penalties for violators of his numerous emergency proclamations.

(It was from these laws that he drew the authority for his limited national emergency proclamation when the European war started last September.)

Then he went to the radio and told the nation in simple language what he had done. It was the first White House "fireside chat."

Five days after his inauguration he called congress into special session. He had an emergency banking bill ready. It passed the house in 38 minutes. Three hours later the senate passed it.

New Government Philosophy

Mr. Roosevelt then began firing to the capitol ready-made bills reflecting a new philosophy of government. So ready was congress to accept his proposals that it later become known as the White House "rubber stamp."

In these early days of the New Deal there were the familiar AAA and NRA acts—later invalidated—the CCC, the TVA, a program for job-giving public works, renunciation of the gold standard, devaluing the dollar, and many others.

Later, high criticism was heaped on the laws that came out of the special session and the supreme court knocked out keystones of the New Deal program.

On Feb. 5, 1937, he sent his memorable message to congress proposing a reorganization of the supreme court. This plan split the democratic party and finally was killed by the senate.

Mr. Roosevelt later, though, had the opportunity of naming a majority of the court through the filling of vacancies.

Conditions confronting Mr. Roosevelt today present the double problem of keeping out of war under a new neutrality policy and finding a solution to such domestic matters as unemployment.

Hopes No Third Term.

WASHINGTON, March 4.—(AP)—Senator Truman (D-Mo) said today he hoped President Roosevelt would not seek a third term, but added:

"If he does, I will support him."

BRITISH

(Continued From Page One)

at Amsterdam yesterday when two Netherlands ships reached port.

Their crews said they took cover and escaped bullets from a warplane, but that they saw it bomb and sink the British ship.

The British steamer Albano, 1,176 tons, sank in the North Sea yesterday after striking a mine. Two were killed.

The Netherlands freighter Limburg, 345 tons, was said to have been raked with machine gun fire at sea by a German plane.

Two crewmen were killed when the 710-ton British steamer Gato, also believed to have struck a mine, sank off the West Coast. There still were 11 missing.

Dutch Steamer Bombed.

LONDON, March 4.—(AP)—The bombing of the Netherladns coastal vessel Elzeena in the North Sea was reported today with the arrival of three survivors at a northeast coast port after having spent 36 hours on a raft.

The survivors said the two others of the vessel's crew of five were killed. They said the Elziena was attacked by a German bomber early yesterday. A Danish vessel picked them up.

Denies Charges

LONDON, March 4.—(AP)—The British minister of information, Sir John Reith, denied in the house of commons today that the opening of United States mails in the British blockade was a British camouflage for learning American trade secrets.

In reply to a question Sir John said steps were being taken to counter such allegations which he said were being circulated in the United States.

Richard Austen Butler, undersecretary of state for foreign affairs, acknowledged in commons the government had received purported German "peace proposals" as published by the British press on Friday, but he said there was no evidence they were authentic.

Scottish Trawler Lost.

LONDON, March 4.—(AP)—The Scottish trawler Ben Attow was lost today with a crew of nine in an explosion which blew up the vessel off the Scottish east coast.

Sub Sinks 36,000 Tons Shipping.

BERLIN, March 4.—(AP)—The German official news agency, DNB, said today a German submarine had returned home reporting the sinking of 36,000 tons of shipping.

SUPPLY BILL

(Continued From Page One)

site, in railroad tracks and other things which would be taken out and moved away if the contractor had to abandon the project.

He assured the committee that when completed to a height of 260 feet, there would be no need to reduce the power storage capacity of the dam in the interest of flood control, and that consequently the entire project would eventually pay for itself through sale of electricity.

EMMETT SEXTETTE ANNEXED NAVARRO COUNTY CHAMPIONSHIP

BLOOMING GROVE, March 4.—(Spl.)—Emmett girls cagers annexed the championship of the Navarro county basketball tournament here Saturday night when they emerged with a 22-17 victory over the Emhouse sextette.

Emmett, class C winner, previously had defeated Frost Thursday night in the second round robin series. The first series ended with each team deadlocked and a second series was arranged. Frost was the B winner and Emhouse was the holder of the A title. These three clubs survived a field of 20 teams in the tournament held two weeks ago.

Frost and Emhouse are scheduled to meet Tuesday night but as Emmett has won over both, it does not have any bearing on the championship.

Pevehouse and Travis, both of Emmett, and Champion, Emhouse, were tied for top scoring honors with eight points each.

The box score:

Emmett (22)	fg	ft	pf	tp
Pevehouse	3	2	1	8
Northern	1	4	2	6
Travis	3	2	1	8
Britton	0	0	1	0
Ballew	0	0	1	0
Holcomb	0	0	3	0

CONGRESS

(Continued From Page One)

to meet any emergency situation, such as war.

While two farm state senators, speaking anonymously, said they were restudying the budget in an effort to determine whether the working balance could be reduced, Senator Wheeler (D-Mont) told reporters:

"I cant' see why some of those funds should not be used. We should make provision for parity payments to the farmer, and, even if we appropriate that money, there would be no reason to increase the $45,000,000,000 debt limitation or raise taxes. It seems to me that is too much cash to carry on the treasury books."

Wheeler said he also favored using some of the $2,000,000,000 stabilization fund for current expenditures if necessary.

Tobey Resolution On Census Queries Reported Adopted

WASHINGTON, March 4.—(AP)—Authoritative sources said today a senate commerce subcommittee had approved a resolution recommending that questions regarding personal income be eliminated from the 1940 census.

The committee agreed its action should be kept secret until tomorrow, but a reliable source told reporters the resolution by Senator Tobey (R-NH) had been approved by a vote of three to two.

The resolution will be voted upon by the full commerce committee tomorrow.

Tobey said that if the resolution was adopted he was confident the census bureau would withdraw the questions.

Tobey argued the questions would violate rights of personal privacy and that the information gathered might become a subject of neighborhood gossip.

Parran Is Renominated

WASHINGTON, March 4.—(AP)—President Roosevelt renominated Thomas Parran of New York today to be surgeon general of the United States.

Guffey to Have Opponent

ARRISBURG, Pa., March 4.—(AP)—Walter . . Jones, wealthy Pittsbrugh oil man and road builder, announced today he will oppose U. S. Senator Joseph F. Guffey (D-Pa) in the Pennsylvania primary April 23.

FORT WORTH WON SUNDAY SCHOOL TITLE VS. WACO

LOCAL QUINTET DEFEATED WACO CREW IN SEMI-FINAL TUSSLE

By CLYDE BICKERSTAFF
Sun Sports Staff

The Corsicana YMCA cagers emerged victorious over the Dallas Central YMCA, 48 to 45, Saturday night at the local association to win the North Texas YMCA basketball championship and to earn the right to represent this district at the Southwest area meet to be held in Dallas, Saturday, March [illegible].

The Diamond Hill Baptist church of Fort Worth downed the Central Christian church of Waco 51 to 39 to win the North Texas title of the Sunday school league. The area championship meet of the Sunday school league will be held in connection with the area YMCA meet in Dallas next Saturday.

The YMCA championship game was a hotly contested affair with the title being decided in the closing minutes of play. Corsicana held a winning margin throughout the contest but was closely pressed on numerous occasions by the Dallas aggregation. Bill Stokes of Corsicana was high score man for the evening having chalked up 17 points. Compton of Corsicana and Clifton of Dallas starred for their respectivev teams by tallying 14 points each.

In the semi-finals of the championship play the Corsicana YMCA downed the Sun Spot Bottlers of Waco 53 to 33 to advance into the finals against Dallas which received a forfeit (2-0) from Oak Cliff of Dallas.

FRANCE

(Continued From Page One)

swirmishes setting off heavy artillery barrages.

The action, however, remained at least temporarily on the local scale despite a combination of spring weather and the advent of Europe's often momentous month of March—which some observers had been predicting would bring a German "blitzkrieg" attempt.

The allies reported seven victories in sharpened aerial action, with the British and French air forces each credited with 20 German planes Saturday.

One more was reported "certainly" to have been brought down by the British and two more "probably" by the French yesterday.

Little Air Fighting.

The war in the air, however, was still largely a conflict of photographers and pamphleteers.

The war was still the attrition stage—the steady strain of keeping millions under arms, the destructive friction of blockade and counter-blockade.

That, roughly, was the conflict in Europe as Sumner Welles, undersecretary of state and President Roosevelt's special investigator, traveled today from Berlin, en route to Paris and London, via Lausanne, Switzerland, to continue his fact-finding, after having talked with Adolf Hitler and the Fuehrer's three top-ranking aides. He is expected to reach Paris Thursday.

Seeks Governorship

JERRY SADLER

SADLER

(Continued From Page One)

said former Gov. James E. Ferguson advocated.

Sadler was nominated to the important office of railroad commissioner in 1938 despite O'Daniel's endorsement of his run-off opponent, C. V. Terrell. Terrell had been active in state politics about 40 years and a member of the railroad commission for many years.

Until Sadler started his winning campaign two years ago, he had no statewide acquaintance. He is a cousin of Showman Harley Sadler.

The railroad commission controls oil production in the nations' largest producing state. While Terrell was on the commission, he and Thompson frequently constituted the majority with Chairman Lon A. Smith dissenting and in the minority. Since Sadler has been a commissioner, he and Smith several times have constituted the majority with Thompson the minority member.

"If elected, my proposal to the legislature for payment of pensions, care of crippled children, the blind, dependent mothers and teachers' retirement will be a 2 1-4 cents gross receipts tax on oil, which under normal producing conditions will raise $13,000,000 annually," Sadler stated.

Natural Gas Tax.

"I also will propose a one cent per 1,000 cubic feet tax on natural gas, which under present producing conditions will raise $10,000,000.

"A tax on natural gas is one that cannot be passed on to the consumers because gas rates are regulated by the railroad commission of Texas and $8,000,000 will be paid by other states. Many states are now taxing natural gas produced in Texas to finance their pension payments. I see no reason why Texas natural resources shoulyd be piped to other states and taxed.

"The present pension program receives annually $9,000,000 from state revenue, and this will make a total of $32,000,000 annually by taxation that cannot be passed on to the consumer.

"It will be my recommendation to the legislature to finance teachers retirement through an incerase in the franchise tax, an incerase on sulphur and a pipeline tax."

Sadler also declared in favor of increasing the truck load limit, now 7,000 pounds. In the last general session of the legislature, a drive to boost the limit failed after a bitter struggle.

Politics to Have No Part.

"Between now and election time, I will not use my vote as a member of the railroad commission for political purpose," Sadler continued.

Later Sadler explained further with reference to passing the proposed taxes on to the consumer that most of Texas oil and sulphur production is consumed outside the state and most of any tax on oil and sulphur therefore would be paid from outside.

About the time that Sadler announced, Candidate Hines issued a press statement saying in part: "Let the boys come on in, the water is fine. x x x The active campaign probably will not get under way by any of the state candidates for some time at least. I shall not start unless some one gets excited and starts shooting in which event he will find my powder dry and my friends waiting the call."

Lettermen Named Monday Morning By Coach Jeffers

Basketball prospects for 1941 will be better than in the past several years when five of the seven 1940 lettermen will be back at Corsicana High school, Coach Bruce Jeffers stated Monday morning as he announced the lettermen for the season just closed.

Corsicana lost to Waco in the district tournament and then West lost a close decision to the Waco Tigers for the district title. Waco later won the regional competition at Denton and will play in the state tournament this week-end in Austin.

Lettermen announced by Jeffers are W. M. Spear, Elliott Beale, Jimmy Plyler, Kenward Sutton, Earl Bryant, Louis Kormos, Ralph Stell. A. B. Horn, Jr., received a manangerial award.

Beale and Stell will not be back in 1941. Spear and Beale received their second cage letters this year. The others received their first letters, Coach Jeffers pointed out.

Cave-In, Flood, Tornado, Sleet Beset Nation

By The Associated Press.

A huge cave-in, a tornado, a flood and a sleet storm disrupted communities in the east, middle west and far west today.

In Shenandoah, Pa., a 16-block area of the city, undermined by a heavy 24-hour rainstorm, suddenly collapsed into some abandoned coal mines. No casualties were reported.

Parts of Indiana and Illinois were strewn with wreckage from a weekend tornado that caused much property damage and at least two deaths.

The little town of Meridian, Calif., sloshed about in several feet of water that completely submerged all but four blocks yesterday—the result of weekend levee breaks in the wake of the widespread California floods.

The sleet storm, accompanied by gusty east and northeast gales running as high as 44 miles an hour, hit the New York metropolitan area last night and showed no sign of abating.

New Jersey, New York and Connecticut roads were glazed; driving was hazardous.

From Santa Fe, N. M., came word of the heaviest snowstorm of the winter. Snow from 10 to 12 inches was piled up within the city. Rains and snow flurries were general in the northern New Mexico mountains.

CORSICANA YMCA BOXING TEAM TOOK OAK CLIFF MEET

Corsicana YMCA amateur boxing team took top honors in a ring tournament with Oak Cliff of Dallas YMCA Saturday night in connection with an all-athletic meet held here between the two associations. The local club won three out of four scheduled fights, dropping the fourth by a narrow margin.

In the lightweight division, Morris Garland of Corsicana took a decision over James Jenkins of Dallas and Jack Griffin of the local team decisioned Clifford Coomer of Dallas after hard-fought battles.

J. E. Lawhon of the local club dropped a close decision to Sylvester McDermott in an evenly fought contest. Hugh Garland of this city secured an easy decision over Harold Jones of the Oak Cliff club in the 155-pound division.

In the badminton division of the meet, Corsicana won both the mixed and men's doubles and tied one and lost one in two single games. Local participants included Bob Brasher, Ralph Gage, Miss Sarah Sowell and Mrs. Ralph Gage. Dallas contestants were Ray Rasor and Mrs. Ray Risor. Several other scheduled events of the meet were postponed due to lack of time.

A return engagement with the Oak Cliff branch will be held in Dallas March 22. The Oak Cliff volleyball team will be in Corsicana Friday, March 8, for a volleyball tournament.

Evidence of Blockade Failure

LEIPZIG, March 4.—(AP)—Leipzig's great international fair, in which 18 neutral nations are participating, was hailed throughout Germany today as incontrovertible evidence of the failure of the allied sea blockade.

EMHOUSE FUTURE FARMERS, FATHERS MEET AT BANQUET

H. C. ROBINSON, COUNTY AGENT, PRINCIPAL SPEAKER FOR OCCASION

Praising the constructive work being done by the Future Farmers of America, H. C. Robinson, county agent, told members of the Emhouse Chapter of the Future Farmers of America at their annual Father and Son banquet Friday night at the Emhouse High school that the farming industry is being beset on every side by great problems and that it is going through a rapid transition. He said it was his belief that the Future Farmers of America were on the right road to solving these problems.

The county agent cited statistics showing that approximately 70 per cent of the youths who grow up on the farm remain to carry on America's first industry. He said the greatest problem of the farming industry today is the marketing of various agricultural products.

In conclusion, Robinson discussed the farming business and its vital connection with the economical system in Texas. He pointed out that regardless of a person's business or profession, if he lived in Texas, he would deal directly with the farming industry.

Wylie Tinker Toastmaster.

The program was opened with the chapter's usual opening ceremony conducted by Virgil Jackson. The invocation was given by Jim Bonner. Wylie Tinker was toastmaster for the occasion.

The dinner was prepared and served in adequate style by the home economic class of the Emhouse High school under the direction of Miss Ruby Roark, home economic teacher.

Toastmaster Tinker recognized the oldest and youngest father present. A. E. Beard was introduced as the oldest father, while John Gillen was presented as the youngest.

The musical portion of the program was given by the McCory string band of Emhouse and a group of high school singers. Members of the McCory band included Billy Basham, Hugh Parish, Jr., Odis McCory and Clifton Brown. Miss Margaret McCory accompanied the band at the piano and sang several popular selections.

A high school girls' trio, composed of Frances Parish, Opal Doris Poarch and Faye Champion, rendered several numbers, being followed by the high school boys' quartet, composed of Alvie Ray, Wylie Tinker, J. E. Belley, and Willis Champion. Mrs. Katherine Heiser accompanied both groups at the piano.

Pays Tribute to Fathers.

Alvie Ray, member of the Emhoues chapter, in a brief address, paid tribute to the fathers, and C. A. Gray, school trustee, responded with a short talk in which he lauded the work being done by the Future Farmers organization.

Melvin Taylor, superintendent of the Emhouse public schools, made a short address in which he praised the work of the organization and pointed out the vital part the schools are playing in preparing young men and women for life. He said practical ways of living were being stressed more in the schools today than ever before.

Honored guests were then introduced by the toastmaster. They included A. C. Richards, C. V. Breithaupt, H. M. Parish, T. D. Salter, Dee Chaney, C. A. Gray, G. W. Watkins, J. Frank Farmer, A. H. Courtade, Clyde Bickerstaff and A. P. Bralley.

Others taking part on the program included B. W. Gamble, Willis Champion, and James McMillen. The program was closed with the salute to the American flag.

MRS. B. M. DAVIS CONDUCT SALESMAN TRAINING PROGRAM

Mrs. Beatrice M. Davis, itinerant training director, general extension division, the University of Texas, will report in Corsicana on Monday, March 11, to conduct a training program among salespeople for the remainder of the month.

This is a continuation of the program which was conducted by the Corsicana Board of Education in co-operation with the Chamber of Commerce last year. At that time Mrs. Davis conducted classes at the Chamber of Commerce in line with the suggestions and requests of the business houses of Corsicana.

The instruction service is provided without cost to the Corsicana people, and the general course of training will be provided in accordance with the wishes of the mechants and the salespeople.

Mrs. Davis will be remembered as a lady of excellent personality, superior training, and wide experience in the merchandising field. She is a member of the faculty of the University of Texas and is serving through the Trade and Industrial Division of the State Department of Education.

COUNTY DEMOCRATIC ORGANIZATION FILL NUMBER VACANCIES

EXECUTIVE COMMITTEE MET SATURDAY MORNING; CRAWFORD PRESIDED

Filling of vacancies in the Navarro county Democratic executive committee caused by death and resignations, discussions of absentee voting, information about precinct conventions, pay of help in approaching Democratic primaries, and other business was transacted Saturday morning at a special called meeting of the committee held at the courthouse.

N. S. Crawford, Kerens, county chairman, presided.

The precinct conventions will be held May 7 with the precinct chairmen presiding to select delegates to the county convention.

Vacancies Filled.

Appointments to fill vacancies made by Chairman Crawford were ratified as follows:

Precinct 3, Corsicana, O. L. Albritton, succeeding A. N. Justiss, deceased; Precinct 9, Bazette, C. C. Holloway, succeeding T. B. Upchurch, resigned; Precinct 16, Dawson, A. M. Moore, succeeding S. Berry, deceased; Precinct 18, W. A. McCants, succeeding E. Palmer, deceased; Precinct 24, Mildred, W. G. Owens, succeeding T. G. Allen, deceased; Precinct 31, Richland, S. F. Herod, succeeding W. L. Cunningham, deceased; Precinct 33, Rural Shade, Marvin Henderson, succeeding J. R. Bruner, resigned, and Precinct 34, Roane, Bud West, succeeding U. R. Holley, resigned.

Other members of the committee are: Ward 1, W. F. Morris; Ward 2, L. W. Ashmore; Ward 4, J. D. Carroll; Precinct 5, Angus, W. L. Bailey; Precinct 6, Barry, D. H. Bell; Precinct 7, Blooming Grove, R. S. High; Precinct 8, Black Hills, W. M. Cook; Precinct 10, Birdston, C. A. Haywood; Precinct 11, Cade, Cooper Harris; Precinct 12, Cryer Creek, J. A. Harris; Precinct 13, Chatfield, Will Sands; Precinct 14, Corbet, T. W. Joseph; Precinct 15, Dresden, E. A. Sumner; Precinct 17, Eureka, Randolph Robinson; Precinct 19, Frost, W. A. Sims; Precinct 20, Kerens, John Kyser; Precinct 21, Drane, J. H. Sutton; Precinct 22, Emhouse, C. W. Collins; Precinct 23, Montfort, D. D. Wylie; Precinct 25, Navarro Mills, J. B. Mosley; Precinct 26, Oak Valley, E. F. Little; Precinct 27, Powell, Tom Kenner; Precinct 28, Pursley, C. M. Payne; Precinct 29, Petty's Chapel, G. H. Blankenship; Precinct 30, Purdon, J. B. Adkins; Precinct 32, Currie, L. D. Craig; Precinct 35, Rice, R. F. Bartlett; Precinct 36, Navarro, C. A. Moore; Precinct 37, Rushing, Will Mathison; Precinct 38, Spring Hill, H. V. Matthews; Precinct 39, Tupelo, L. M. Williams; Precinct 40, Winkler, D. E. Steele; Precinct 41, White's Chapel, F. P. McQuiston; Precinct 42, Emmett, Chas. Green; Precinct 43, Rodney, C. D. Carter; Precinct 44, Westbrook, Z. Westbrook; Precinct 45, Eldorado, Hill Hale; Precinct 46, Raleigh, F. D. Warren; Precinct 47, Phillips Chapel, J. L. Garvin; Precinct 48, Retreat, S. A. Norwood.

A motion was carried unanimously that the primaries be conducted by the precinct chairmen or under their direction, and the help will be paid 20 cents per hour or $2 per day.

Chairman Crawford led a discussion relative to the absentee voting practices in some precincts of the county and admonished the committeemen to see that the law governing absentee voting was adhered to in their precincts. Chairman Crawford referred to a grand jury investigation into the absentee voting conditions two years ago. He said it looked like many had rather vote absentee than go to the polls on election day—a violation of the law. He said that illness or inability to be at the polls on election day were the only reasons for absentees, and suggested that each election judeg keep a list of absentee voters in case the grand jury again saw fit to go into the matter.

The next meeting of the committee will be June 17 when drawing for places on the ticket will be held and assessment of candidates for expenses of the primaries will be levied.

The presidential primary conventions will be held May 4. Chairman Crawford stated he hoped that delegations endorsing the New Deal would be selected by the precincts.

The polls will open at 8a. m. and close at 7 p. m. on election day.

A committee composed of W. A. McCants, Zion's Rest; L. W. Ashmore, Corsicana, and John Kyser, Kerens, presented resolutions relative to the death of the five members which were unanimously endorsed.

Notice

I wish to announce to my friends and patrons of Barry and Blooming Grove that I am now connected with the B. and B. Barber Shop in Corsicana at 308 N. Beaton Street. Come to see me. Thanks.

LLOYD SIMPSON

TEXAS EXES NAVARRO COUNTY ADDRESSED BY DR. C. P. PATTERSON

DAVID W. RALSTON ELECTED PRESIDENT OF LOCAL ORGANIZATION

Dr. C. Perry Patterson, professor of government, University of Texas, was the principal speaker Friday evening at the annual March Second banquet of the Navarro County University of Texas Ex-Students association. Officers for the ensuing year were elected. The banquet was held in the educational building of the First Methodist church and was served by Mrs. O. F. Allen's Circle. Julius C. Jacobs, president, presided. The speaker was introduced by Beauford H Jester, former regent of the University. The invocation was given by Rev. Warren Richard Hall, Jr., pastor of the First Presbyterian Church of Fairfield. Piano selections were given by Miss Clover Rutherford, talented pianist and composer. "Liberty in the Modern State" was the subject of Dr. Patterson. There were 45 present at the banquet.

Officers elected for 1940 were David W. Ralston, president; Mrs. Josephine Tullos Roe, vice president; Miss Anna Mary Pierce, secretary-treasurer, and Paul Moore, Alcalde reporter, re-elected.

The program was opened with the singing of "America" and was closed with "The Eyes of Texas."

Jester Introduces Speaker.

In presenting Dr. Patterson, Mr. Jester pointed out his research work along with his teaching and writing of many textbooks.

Dr. Patterson outlined some of the changes and improvements at the University of Texas in rerent years, and quoted the following figures romparing 1930 and 1940.

	1930	1940
Enrollment	5,774	10,995
Faculty	353	563
Buildings	16	46
Library Volumes	411,012	613,615

The Texas library ranks as the greatest in the South and thirteenth in the nation. The McDonald Observatory has the second largest telescope in the world, and the new radio building was described. Texas is one of the four recognized graduate schools in the south. Dr. Patterson referred to the 6,000 students in the summer schools and the thousands taking extension courses makes the institution reach more than 30,000 students yearly.

There were 1,292 courses offered in the University.

Many Church Members.

Speaking of the religious situation at the main university Dr. Patterson pointed out that the campus was bounded by churches, and one minister stated 80 per cent of the membership of his church were students and faculty members. There are thirty-one sects represented in the student body, lead by the Methodists with 2,878, Baptists 1900; Presbyterians, 1168; Catholics, 805; Episcopalians, 791; and Jews, 261. "Ninety percent of the faculty at the University of Texas are active church members," the speaker asserted.

The first book purchased and indexed in the famous University library is the Concordance of the Bible and the Holy Bible is the No. 1 book, he pointed out.

The average cost per student for the University is $237 per year, an unusually low figure compared with other high ranking institutions.

Turning to another portion of his address, Dr. Patterson stated that Texas was the only state that had won its independence except the original thirteen colonies, the remaining states having been carved out of the public domain.

"There is no possibility of this government being unseated so long as the people in the United States truly celebrate and appreciate July 4.

Dr. Patterson then outlined the slowness of man in progress and asked the question was Democracy too far ahead of man. Canada, France and the United States were termed the only democracies along with some smaller countries. He outlined the wars through the centuries between liberty and authority, referring to the Crusades, breaking of the ties to the Pope and Emperor, feudal systems, commerce, colonization, etc. Turk raids on the commerce in that section following the Crusades was credited with causing Magellan's voyage around the world, the discovery of America, proof the world was round, invention of printing presses, medieval universities (on the side of liberty), Renaissance, the Great Reformation, etc.

When man is going through a transition period and change, he follow leaders, the speaker pointed out.

Again citing historical incidents, Dr. Pattherson said beware of benevolent rulers who give benefits like Caesar and Anthony immediately before the fall of the Roman Republic and the Establishment of the Roman Empire. He warned against too much executive power by governmental heads, especially through boards and commissions, citing present trends as similar to those in other nations many centuries ago.

"Only a property owning society can tell a government where to go or stop" he stated, "for without property the people have to feed out of the hand of the government."

All revolutions in history are revolts against executive authority, he declared, and history's erdict is that no revolutions have ever been made against legislative or judicial departments of the government. The tendency now in America is toward increased executive authority, and there is too much leaning in that direction.

Card of Thanks

We take this method in expressing our thanks and appreciation to our dear friends during all the illness and recent passing of our dear mother, Mrs. G. R. Brown. We do so appreciate Dr. Carter's ever faithfulness and untiring effort. We thank each and every one for the beautiful floral offerings. We especially appreciate Bro. Payne for the lovely message of condolence.

Zenie Clayton Named Scout Of Brooklyn Club

Zenie Clayton, Corsicanan, who has spent most of his life as a baseball player and umpire, essays a new role in the national pastime this spring with the announcement of his appointment as the scout for the Brooklyn Dodgers of the National league.

Clayton assumed his duties March 1 and will leave Corsicana soon to look for promising material for the Brooklyn and affiliated clubs among the high schools, colleges and semi-pro ranks of the Southwest and Middle West.

The new scout finished his playing days before the world war and since that time has umpired. After graduating from the Corsicana sandlots, Clayton played infield in the Texas league (Houston club), St. Louis Cardinals, American association, Southern association, Tri-State league and ended his career in the Three-I circuit in 1916.

He was umpire in the American association for seven campaigns and later was in the Western league and was in the Middle Atlantic last summer.

COMMITTEE REFUSED FURTHER FUNDS FOR BYRD EXPEDITION

HOUSE COMMITTEE RAISES BUDGET TO DATE TO LARGE SUM

WASHINGTON, March 4.—(AP)—The house appropriations committee refused today to approve another $250,000 appropriations for the Byrd Antartic exepedition, saying that it had been misinformed last year as to the expedition's needs.

The committee made other cuts in the interior department bill, to trim a total of $2,986,277 from President Roosevelt's requests for the department.

The committee recommended $119,071,187 for all of the department's activities. Its action pushed the total of congressional reductions in presidential budget estimates past $293,000,000.

The $250,000 fund for the Byrd expedition was refused on the ground that the committee was given wrong information last year as to how long it would be necessary to provide money for that project. Asserting that $350,000 already had been appropriated for the purpose, the committee left provision of further funds to future action.

Also disallowed was $985,350 request for a new map-making project by the geological survey. The committee said that since the maps were suggested as being of strategic military importance, the money should be provided under the heading of military appropriations. The geological survey was cut $1,247,150 below the chief executive's request.

In the appropriation bill, recommended to the house for consideration late today or tomorrow, the following major items were included:

Bureau of Indian affairs $30,497,736—$456,125 less than budget estimates; bureau of reclamation $48,214,600—$195,000 more than the budget; national park service $8,948,770—$117,770 less.

The total carried in the bill represents a reduction of $29,789,443 below current appropriations for the same functions, due chiefly to cuts made at the White House before the estimates were presented to congress.

National Park Funds

WASHINGTON, March 4.—(AP)—The house appropriations committee recommended to congress today appropriation of $8,948,770 to operate the national park service in the 1941 fiscal year, starting next July 1.

The amount was $3,661,252 less than the service had for the present year and $117,700 less than the burget estimates.

Among amounts recommended for the national parks and different activities of the service, and changes from amounts appropriated for this year were:

Carlsbad Caverns, N. M., $103,840, increase $1,670; Glacier National Park, Montana, $205,400, decrease $15,810; Grand Canyon, Arizona, $132,580, increase $3,380; Platt National Park, Oklahoma, $24,075 increase $3,750; Yellowstone, Wyoming, $461,960, increase $1,560.

ACTUAL WORK UNDER WAY ON CITY WATER WORKS IMPROVEMENT

Actual construction of the first portion of the new waterworks system improvements was started Monday morning when a crew of more than a hundred men began work on the new water main in the vicinity of East First Avenue and North Ninth street.

Another group of workmen were engaged in cleaning off West Third Avenue and adjacent streets following the completion of the installation of a new water main, and preparatory to repaving of the street and a portion of the block around the courthouse.

City officials said decision to start the new main in the city was reached after studying possibilities of interruptions by bad weather and to allow sufficient time for the remainder of the pipe and other materials needed to arrive in Corsicana. The waterworks improvements will cost well over $125,000.

Easements are now being secured for a new main sewer line from East Corsicana to the main western residential section, and work is expected to start soon. The new line will be slightly over 13,000 feet long, and will be of vitrified clay tile.

Magneto Repairs

Mr. Tractor owner, get ready for the spring plowing now. Have us clean and adjust that Magneto so you won't have to stop when you start plowing. Our work guaranteed. Our prices reasonable.

COUNTY 4-H CLUBS MET SATURDAY AT CORSICANA YMCA

PLANS WERE MADE ATTEND SPECIAL DAY AT FORT WORTH SHOW

More than a hundred members of Navarro county 4-H clubs attended a meeting at the Corsicana YMCA Saturday afternoon and heard winners on last year's project explain their methods. Plans were also made for attending the 4-H club day next Monday at the Fort Worth Fat Stock Show.

Duane Womack, president of the Corsicana club, presided at the meeting and Elliott Beale, vice president, led the repeating of the pledge and in singing. A. T. Smith, Jr., and James Page, secretaries of the local units, checked their rolls at the meeting.

Charley Rhoads of Barry, one of the top winners in the dry lot group at the fair last fall, attributed his success to gentling his calf quickly and feeding it plenty of shelled corn, cottonseed meal and sorghum hay.

Charles H. Harrison, owner of the grand champion at the fail show, advised boys to change feeds gradually when this was found necessary.

Virgil Lee Graves of Kerens, who successfully fed by both methods last year, explained how easy it was to get calves "off their feed and means of overcoming the problem. He asserted he was a great believer in the use of home-grown feeds. Graves will exhibit his calf, which placed second in Corsicana last year, at the Forth Worth show soon.

Winner of last year's record book contest, Raymond Hayes, told his fellow club members of the importance of keeping accurate records and demonstrated his methods.

After a short talk by A. P. Bralley, assistant county agent, it was indicated a number of the club members would attend the special day at Fort Worth next week. Tickets were distributed for the special rodeo performance for the boys and girls. Local club leaders will be in charge of the groups for the trip.

Among the adult leaders attending the Saturday meeting were Hugh Parrish, Charley Rhoads, Ralph Stell, O. K. Vinson and John A. Pierce.

A large number of the boys were reported to have attended the showing of the special picture by the Federal Land Bank of Houston at the Palace on Saturday morning. They showed special interest in a portion of the films made during the Corsicana fair last fall.

MOST OF WAR BOOM IN FOODSTUFFS HAS BEEN WIPED OUT

By FRANKLIN MULLIN

CHICAGO, March 4.—(AP)—Most of the war boom in food costs which took a sudden wallop at the American pocketbook last September has been wiped out the past few months, commodity market statisticians showed today, and the expense of feeding the family has turned back toward its lowest level since 1934.

Reductions in the price of meat, particularly pork, lard and similar items, paralleling the decline of hog values, has done much to lower the food budget. Thus, war, which has skyrocketed food prices in Europe and produced rationing measures and introduction of substitutes, has had only a slight net effect on the American consumer. So far, food price changes have followed the pattern in the early months of the world war.

Market experts said this reflects to some extent the fact that supplies of most foods at the start of the war were substantially greater than in recent years. Furthermoe, Europe as yet has made no unusual demands for American products in proportions to exports 25 years ago.

WAR BRIEFS

Salvation Army Be Watched.

TOKYO, March 4.—(AP)—War Minister General Shunroku Hata declared before the diet (parliament) today that the Salvation Army must be placed under "proper regulations" for prevention of "espionage."

Hata said military authorities had started watching the religious organization's activities.

"Aside from questions of its dependency on Britain, or its religious beliefs," he declared, "I believe that the Salvation Army must be placed under proper regulations in order to prevent espionage."

Fairfield Woman Died Jacksonville

FAIRFIELD, March 4.—(Spl.)—Mrs. Amah Sue Camerson, aged 32, died in a Jacksonville hospital early Wednesday following an operation.

Mrs. Cameron was born and reared in Fairfield and is survived by her husband, W. R. Cameron of Arp; her parents, Mr. and Mrs. C. C. Terry, Sr., of Fairfield; three brothers, C. C. Terry, Jr., of Marlin; E. D. Terry of Austin and one sister, Mrs. L. E. Peevy of Austin.

AMERICAN MEDICAL ASSOCIATION HELD SUBJECT TO ACTION

VALIDITY OF ANTI-TRUST VIOLATION INDICTMENT UPHELD BY COURT

WASHINGTON, March 4.—(AP)—The United States court of appeals ruled today that the justice department could prosecute the American Medical Association on charges of violating the Sherman anti-trust act.

It sustained the validity of an indictment which charged the A. M. A., two of its affiliates and 20 individual physicians had acted in restraint of trade by opposing activities of a group health association in Washington.

By this action, the court reversed a decision of the district court which had upheld a demurrer in which the A. M. A. pleaded that te practice of medicine was a "learned profession" rather than a trade and therefore not subject to prosecution. The case is therefore sent back to district court for trial.

The appellant court held the practice of medicine fell within the scope of the Sherman anti-trust act.

Last July, in district court, Justice James Proctor said in upholding the Medical Association's demurrer that he thought the legal concept of the word "trade" had long been settled in a supreme court decision "expressly excepting the learned professions."

Last October, the supreme court refused to pass on the case. The appellate court's decision opens the way for another opportunity for the supreme court to review the litigation.

The indicted include Dr. Morris Fishbein, editor of the Journal of the A. M. A.; Dr. Alin West, the Medical Associations' secretary and general manager; the District of Columbia Medical Society, the Harris County (Texas) Medical Society, and individual doctors.

The Texas group was brought into the case on a complaint that it had expelled from membership a doctor who was employed by Group Health, Inc.

In the indictment, the defendants are accused of refusing to lete doctors employed by the cooperative use hospital facilities in Washington, and of forbidding A. M. A. doctors to consult with those on Group Health's payroll.

"It cannot be admitted," said teh appellate court, "that the medical profession may through its great medical societies, either by rule or disciplinary proceedings legally effectuate restrains as far-reaching as those now charged."

To Go To Supreme Court.

CHICAGO, March 4—(AP)—Officials of the American Medical Association said today the organization no doubt "would at once apply to the United States supreme court for a definite decision as to whether or not the practice of a profession can be considered to come within the scope of the Sherman anti-trust law."

Trio of Young Georgetown Men Killed In Crash

GEORGETOWN, March 4.—(AP)—Funeral services were arranged today for three young Georgetown residents killed in a three-way automobile crash one mile south of here last night.

The dead were Harold Gustafson, 26, Glenn Spooner, 29, and William Suddith, 18, all occupants of a car driven by Spooner. Also in the car, but not seriously injured, were Richard Lewis, 23, and Henry Anderson, 28.

Occupants of two other cars in the collision were shaken up but not seriously injured..

Three Persons Killed At Coahoma Grade Crossing

BIG SPRING, March 4.—(AP)—An early morning grade crossing crash at Coahoma, 12 miles east of here, today took the lives of an oil field worker, his baby son, and a young nephew.

Killed instantly whel tehir light car was splintered by an eastbound Texas and Pacific passenger train were Luther Bodine, 24; Aubrey Allen Bodine, his nine-months-old son; and three-year-old L. E. Bodine.

The crash occurred at an open crossing a quarter-mile east of the Coahoma station, as Bodine was en route to take the young nephew home to his parents, Mr. and Mrs. Buster Bodine. All three occupants were thown clear of the car, and its wreckage was strewn a half mile before the train could be brought to a stop

Bodine was employed by Elmer Terry, an oil field contractor. Funeral arrangements had not been completed.

Parity Payments.

Parity payments for 1939 for Navarro county farmers, amounted to $422,085.54 Monday after the receipt of 35 parity vouchers at the AAA offices in the courthouse.
